### HIGH-QUALITY WATER-RESISTANT ECO-FRIENDLY RPET POLYESTER

Manufactured using ECO-FRIENDLY RPET polyester made from multiple used plastic bottles that ordinarily end up in a landfill or the ocean. The equivalent of 14 × 500ml plastic bottles are used in the production of each bag. That means, instead of contributing to the further desecration and damage to our environment, and in particular our oceans, which remain full of plastic waste, you will, with this product, be partaking in the circular economy and, as a result, be taking your environmental responsibilities seriously.

### COMPACT BUT CAPACIOUS

We at RIVACASE know the importance of keeping your things safe. Your belongings are our utmost priority when we work our way through the design process. That is why the capacious main compartment of this bag features a zippered mesh pocket so that you can slot away all of those

important valuables, and know that they are safely tucked away. The bag also comes with a padded pocket for a laptop up to 14" in dimension in order to keep your most crucial item - your laptop - also safely tucked away and not rattling around in your bag where it can be more susceptible to damage from knocks and bumps.

## **FRONT ZIPPERED POCKET**

Being organized is absolutely key to your success. Making sure that you know where each of your items are so that you can access them at a moment's notice is crucial not only for streamlining your day, but also for maintaining your peace of mind and temperament. That is why we have made sure that this bag features an organizer panel so that you can slot away things like a smartphone, pens, flash drives and other accessories. This means that every day, you will be ready to tackle any challenge with the peace of mind that comes from being perfectly prepared and organized.

## **COMFORTABLE CARRYING**

We all know that long journeys can occasionally be a real drag. One way to slightly lighten the load is to ensure that the bags or luggage you are carrying is built in a way that makes life as easy as possible on your journey. Cheaply designed bags often come with flimsy, skinny straps that can dig into your shoulders and offer limited adjustment options, making them unsuitable for different body shapes. That's why this bag comes with soft handles and a removable, adjustable shoulder strap, allowing you to customize the fit for a comfortable and hassle-free journey from start to finish.

## **TROLLEY STRAP**

We all understand the challenges of navigating train stations or airports with multiple bags. This task becomes even more challenging if you have children with you or need an extra hand free. To alleviate the stress of these situations, we've thoughtfully included a trolley strap with this bag. This strap allows you to easily slide it over the handle of your luggage, lightening the load on your shoulders and freeing up an extra hand to carry whatever else you might need to take with you on your journey.

- Efficient design with maximum storage capacity for professionals on the go
