

CPU COOLER S_MULTI/FORTIS 5 EY3A008 ENDORFY

Modelis: EY3A008

Gamintojas: ENDORFY

EAN: 5903018665856

Prekės kodas: 14591

51.99€

The Fortis 5 may look small, but it's as powerful as an open fridge on a hot summer night. At only 15.9 cm in height - it can easily keep CPU temperatures low and even fit into the smallest of cases.

Its central feature is the Fluctus 140 mm fan, attached to an asymmetrical heatsink that's ready for anything. This combo provides you with silence, incredible cooling performance, more silence, an optional semi-passive mode... Have we mentioned how silent it is yet? ;)

The Fortis 5 is compatible with today's popular sockets and also provides for plenty of RAM clearance, With our video instructions you can easily install it in just a few minutes, even if it's your first time building a computer! Imagine the look on the face of your friends and family when you show them your newly built computer (we bet it will look something like this: :o).

Let's make some noise silence!

The Fortis 5 is so quiet that we even had to check a few times to see if it was actually running. If you have exceptional hearing then you might be able to catch it while rendering some 3D objects or running intensive technical simulations.

Winter asymmetrical heatsink is coming

The Fortis 5 is 15.9 cm tall – enough to easily keep CPU temperatures low. You can push your PC to its limits for hours on end, without the CPU having to break a sweat.

It couldn't be easier

Installing the Fortis 5 is quick and easy thanks to the mounting bracket, even if it's your first time assembling a PC. Step-by-step video instructions are available online and will guide you through the process. It truly couldn't be easier!

Non-screepy paste

The Fortis 5 comes with a tube of efficient and easy-to-apply Pactum PT-3 thermal paste, with an amount sufficient for up to 3-4 applications. There's nothing to fear here, we tested it ourselves.

6-year warranty

Here at ENDORFY, we have the highest levels of confidence in our products. That's why we offer a 6-year warranty on the entire Fortis 5 cooling system (although you probably won't have to use it anyway).
