The Xilence 120mm FDB Fan is ideal for gaming adventures. The elegant design of the black case fan blends elegantly into all PC builds and the embossed metallic Xilence logo also enhances the look.

Thanks to the Fluid Dynamic Bearing technology, the XPF120X.B.PWM has extremely high running accuracy and runs particularly smoothly, so that only a barely perceptible whisper of the cooling air flow is perceived.

The vibration is optimally dampened by the integrated rubber pads of the case fan. The streamlined design on the rotor blades allows the air to circulate even better.

The fan can be mounted in the case as well as on a radiator or a CPU cooler.

So the gaming can also be enjoyed in silence.
