122.98€

The NZXT H5 Flow RGB chassis is designed to provide a mid-tower form factor with practical features for gamers and PC builders alike. Its airflow-optimized mesh design enhances cooling performance while the included RGB fans add a vibrant touch to your setup. The side panels are toolless, making it easy to access components, and the cable management system with 28 mm clearance helps maintain a clean interior. With a windowed tempered-glass side panel, the NZXT H5 Flow RGB showcases internal components beautifully. It supports multiple internal bays, allowing for versatile storage options and accommodating long graphics cards up to 410 mm. The chassis also offers excellent cooling support with compatibility for various fan sizes, including a radiator for effective heat dissipation.
