The ASUS TUF Gaming power supply offers reliable and efficient performance to support demanding gaming systems. With a power output of 850 watts and the ability to provide multiple voltage levels, this internal power supply ensures that all your components receive the necessary energy for optimal operation. Compliant with ATX12V standards and 80 PLUS Gold certified, it delivers efficiency and incorporates advanced protection features, ensuring safety and longevity for your gaming hardware.

Designed with flexibility in mind, the fully modular design allows for easy cable management, reducing clutter and improving airflow. The Axial-tech fan design and dual ball bearing cooling fan ensure that the power supply runs quietly and effectively under load. Equipped with overcurrent, overvoltage, overpower, undervoltage, and short-circuit protection, it becomes a crucial component of any gaming rig, safeguarding against unforeseen issues that could compromise system integrity.
