The GIGABYTE AORUS ELITE AE1000PM PG5 ICE power supply offers performance and reliability for powering high-end systems. With a power output of 1000 watts and efficiency rated at 80 PLUS Platinum, this unit ensures energy consumption is optimized while delivering stable power to your components. The fully modular design allows for customizable cable management, helping to maintain a clean build and improving airflow within your case.

Equipped with a range of protective features including overheat protection, overcurrent protection, and short-circuit protection, this power supply prioritizes safety without compromising performance. It is designed with a fluid dynamic bearing cooling fan that operates in a Zero RPM mode under low loads, ensuring quiet operation. With a mean time between failures (MTBF) of 100,000 hours and compatibility with a variety of compliance standards, this power supply is engineered to last and support your demanding gaming or workstation setup.
