Aprašymas

Darkflash DK151 LED computer case (white) + 3 RGB fans

Darkflash DK151 is a roomy computer case, designed in a modern, eye-catching style. It is compatible with a wide range of motherboard standards and has a number of useful, efficient ports. What's more, it offers ARGB backlighting of the front panel and a transparent side panel, so you can expose the visual qualities of your chosen components.

Plenty of possibilities

The case supports ATX, M-ATX and ITX motherboard standards. It also provides the ability to mount a 160 mm high CPU and a graphics card up to 290 mm long. Assemble your dream computer without worrying that the components you choose won't fit!

Your dream configuration

The case is equipped with many useful, efficient ports. It is among others, a USB 3.0 port, which is characterized by high throughput. In addition, it has 7 expansion slots, so you will be able to expand your configuration in the way you choose.

Modern design

The DK151 fits in with the modern style. The front panel of the case features ARGB backlighting, which draws the eye and gives the design a gaming feel. What's more, the side panel is made of tempered glass, so components equipped with backlighting will be clearly visible.
