Freewell All Day set of 6 filters for DJI Mini 3 Pro / Mini 3

The All Day Kit is a set of 6 filters designed for the DJI Mini 3 Pro / Mini 3. It includes ND4, ND8, ND16, ND32, ND64 and ND1000 filters, so you can reduce the amount of light entering the lens and achieve advanced effects, including extending the exposure time. Create breathtaking photos and experiment with Freewell filters! Included in the kit you will find a special case for storing the filters.

Stunning results

Neutral Density (ND) optical filters allow you to reduce the amount of light reaching the sensor of your camera, or camcorder, without changing the color or tone of your photo. The accessory is very useful when we need to increase the exposure time or increase the depth of field, but still maintain the right exposure. The ND1000 filter allows you to reduce the amount of light by 10 apertures,

which means that only 0.1% of the light reaches the camera sensor. The result is a blurring of moving elements - such as water or clouds. The ND4 filter, on the other hand, provides a reduction of 2 apertures. The variety of the set will allow you to adapt to different creative scenarios.

Solid workmanship

All filters were created with attention to every detail. They are ultra-light (0.7 g) and do not disturb the balance of the drone. What's more, thanks to a special coating, the accessories are resistant to scratches, dust and grease and guarantee the best image quality. Keeping them clean is no problem at all.

Included:

- ND4 filter
- ND8 filter
- ND16 filter
- ND32 filter
- ND64 filter
- ND1000 filter
- Filter case
