

3D Printer Creality Ender-3 V3 Plus High- Speed CoreXZ System 300x300x330mm

Modelis: Ender-3 V3 Plus

Gamintojas: CREALITY

EAN: 6971636402701

Prekės kodas: 21693

408.99€

Creality Ender-3 V3 Plus: High-Speed and Large Volume 3D Printing

The Creality Ender-3 V3 Plus 3D printer is an advanced, high-performance device engineered to transform complex digital ideas into physical reality with outstanding precision and speed. Utilizing the innovative CoreXZ system, this printer achieves impressive speeds of up to 600 mm/s and acceleration of 20000 mm/s², significantly cutting down project completion times without compromising quality.

Key Advantages of the Ender-3 V3 Plus

- **Large Working Volume:** The generous 300x300x330 mm build size allows for the creation of full-scale models, such as helmets or large prototypes, eliminating the need to split prints into multiple sections.
- **Ultra-Fast CoreXZ System:** The unique CoreXZ motion system ensures smooth, synchronized movements in the X and Z axes, delivering rapid and extremely accurate model creation. Two powerful motors with 1,000 mN peak torque guarantee stable movement, even during heavy printing tasks.
- **Maximized Stability:** Built with a robust metal construction and supported by additional structural bars, the Ender-3 V3 Plus maintains unparalleled stability, minimizing vibration and ensuring consistent, high-precision print quality throughout the process.

Advanced Extrusion and Material Versatility

The Ender-3 V3 Plus is equipped with a new high-speed direct extruder featuring a powerful 60W ceramic heating element. This advanced extrusion system ensures quick, efficient melting of filaments, reducing the risk of blockages and maintaining a consistent flow, crucial for complex and long projects. The printer supports a wide array of materials, including PLA, TPU, PETG, ABS, PLA-CF, PETG-CF, and CR-carbon.

Integrated Tri-metal Nozzle System

Innovation extends to the hotend with the integrated Tri-metal quick-change nozzle (made with hardened steel and a titanium cartridge). Coupled with two dedicated cooling fans, this setup provides optimal conditions for rapid layer cooling and facilitates easy maintenance, ensuring excellent finished print quality.

Smart Features and Ease of Use

- **Automatic Leveling:** The built-in automatic leveling function simplifies setup and eliminates the need for tedious manual adjustments, allowing users to start printing faster.
- **Creality OS Connectivity:** Based on open source code, the Creality OS enhances user experience. Connectivity options via WiFi, USB drive, and the Creality Cloud app allow for seamless file transfer and remote control of the 3D printer.

- **Input Shaping:** The integrated G-sensor handles input shaping, dynamically compensating for vibrations and further improving print surface smoothness and accuracy.
- **Intuitive Interface:** Management is made simple via the 4.3" HD color touch screen.

Technical Specifications Overview

The printer utilizes FDM technology, boasts a printing accuracy of ± 0.2 mm, and features a flexible workplate that enhances ease of model removal. File formats supported include STL, OBJ, and 3MF.

CREALITY is a globally recognized leader in the 3D printing industry, famous for developing reliable, innovative, and accessible FDM and resin printers suitable for hobbyists, professionals, and educational institutions alike. Their commitment to open-source technology and community support makes their products highly versatile and future-proof.

Order today from ++SHOP++ as we offer the best prices and expert support for all Creality 3D printing solutions.

Creality Ender-3 V3 Plus 3D Printer

The Creality Ender-3 V3 Plus 3D printer is an advanced device that transforms ideas into reality with unprecedented precision. In addition, it does it in no time. With an impressive 300x300x330 mm CoreXZ working volume at speeds of up to 600 mm/s and advanced features such as an integrated Tri-metal nozzle and automatic calibration, you can enjoy an efficient and trouble-free printing process. The printer offers power, stability and versatility that translate into exceptional print quality, regardless of the complexity of your projects.

Increased print volume

The Creality Ender-3 V3 Plus allows you to print large models without having to split them into parts. With a working volume of 300x300x330 mm, you can create full-size objects, such as helmets or larger decorative pieces, in a single run. This not only saves time, but also minimizes the risk of

assembly errors and improves the structural integrity of finished prints.

CoreXZ: speed, precision and power

The CoreXZ system provides smooth and fast movements at speeds of up to 600 mm/s. With coordinated movements in the X and Z axes, as well as enhanced accuracy in the Z axis, the printer guarantees extremely accurate and fast model creation. This means faster print times without compromising on quality, which is crucial for professionals needing to complete projects quickly. What's more, two powerful motors with a peak torque of 1,000 mN ensure smooth movement of the work platform even for heavy prints. They also facilitate perfectly smooth surfaces, eliminating errors due to vibration or instability.

Stable construction

The printer's metal construction with additional support bars provides unparalleled stability during printing. The solid frame and additional support elements prevent any movement that could negatively affect the quality of your prints. As a result, you can be sure that your designs will be produced with the highest precision.

Advanced extrusion

A direct extruder with a 60W ceramic heating element allows for efficient and trouble-free melting of the filaments. This technology eliminates the risk of blockages and ensures consistent print quality, which is especially important for complex and long-lasting projects.

Integrated Tri-metal nozzle and two powerful fans

The innovative Tri-metal nozzle with titanium cartridge and two cooling fans ensure perfect printing conditions. The nozzle allows for quick and easy changes, while the fans take care of rapid cooling of the printed layers, resulting in excellent quality.

Automatic calibration and Creality OS

Pateikta prekės informacija yra orientacinio pobūdžio. Techninės savybės, nuotraukos, aprašymai ir kaina gali keistis be išankstinio perspėjimo. Gamintojas ir pardavėjas neatsako už galimus duomenų neatitikimus ar tipografines klaidas. Prieš įsigyjant rekomenduojame pasitikrinti aktualią informaciją.

The automatic calibration function eliminates the need for manual adjustments, making the printer significantly easier to use. Creality OS, based on open source code, offers advanced features and allows remote control of the printer via the Creality Cloud app.

Included

- Base
- Frame with gate
- Touchscreen
- Filament tube
- Filament spool holder
- Power cable
- Filament holder to prevent tangling
- M4*8 screws (8 pieces)
- Tool set
- Socket wrench
- Teflon tube
- Filament
- Cutting pliers
- Cable ties (5 pieces)
- Cable clips (3 pieces)
- Extruder cable protector
- Nozzle cleaner
- USB memory stick
- User manual

Manufacturer	Creality
Model	Ender-3 V3 Plus
Printing technology	FDM
Working volume	300x300x330 mm
Product dimensions	445x410x577 mm

Pateikta prekės informacija yra orientacinio pobūdžio. Techninės savybės, nuotraukos, aprašymai ir kaina gali keistis be išankstinio perspėjimo. Package dimensions	623x503x245 mm
Net weight	11.5 kg
Printing speed	≤600 mm/sec
Acceleration	≤20000 mm/s ²
Printing accuracy	±0.2 mm
Layer thickness	0.1-0.35 mm
Filament diameter	1.75 mm
File transfer mode	USB drive, WLAN, Creality Cloud
Nozzle diameter	0.4 mm
Working substrate	Flexible workplate
Nozzle type	Quick-change nozzle (with hardened steel) integrated with heatbreak
Extruder	New high speed direct extruder
Nozzle temperature	≤300°C
Working table temperature	≤100°C
Input shaping	Yes (built-in G-sensor)
Leveling mode	Automatic leveling
Display screen	4.3" HD color touch screen
Motherboard	32-bit
Connectivity	WiFi
Supported file formats	STL, OBJ, 3MF
Supported filaments	PLA, TPU, PETG, ABS, PLA-CF, PETG-CF, CR-carbon
Control application	Creality Cloud
User interface languages	English, Spanish, German, French, Russian, Portuguese, Italian, Turkish, Chinese, Japanese, Korean
Optional camera	Nebula
Rated voltage	100-120V, 200-240V, 50/60Hz
Rated power	350W

Gross weight: 14500, Net weight: 11500, Box length: 62,30, Box width: 50,30, Box height: 24,50,

Printing speed (mm/s): 600, Printer type: FDM , GPSR Link: <https://psr->
