Carpet washing vacuum cleaner Deerma DEM-BY700

Are you looking for a vacuum cleaner that can handle any type of dirt and at the same time take care of the hygiene of your home? This model is the perfect tool for cleaning carpets, upholstery, windows, etc. It combines advanced cleaning technology with disinfection by means of high temperature, offering maximum efficiency and comfort. The included tips will allow you to take care of almost any surface.

Versatile tips for different tasks

In the set you will find several tips that allow you to thoroughly clean different surfaces. The crevice nozzle will help you reach hard-to-reach places, and the upholstery brush will easily deal with stubborn dirt on sofas and chairs. The set also includes a wide (16 cm) tip for carpets and floors, as well as a special nozzle for removing stains and dried dirt. A glass cleaning tip is also at your disposal. So you can be sure that every surface in your home will be perfectly clean.

Removing bacteria and dirt with high heat

The device uses a power level of 1650W and heats up within 30 seconds producing 100°C steam, so it effectively eliminates stubborn stains. What's more, it removes dust mites and bacteria - perfect for allergy sufferers.

3 modes of operation

Deerma DEM-BY700 allows you to choose from 3 available operating modes, so you can adjust the vacuum cleaner's performance to your needs. Gentle Wash uses room temperature water and will work well for delicate surfaces. Hot Rising (50-60°C) will deal with stubborn stains, and Steam Wash uses 100°C to penetrate deep layers of material and eliminate bacteria.

Self-cleaning function

To make your vacuum cleaner serve you for as long as possible, it is equipped with a self-cleaning function - just press the appropriate button. The automatic descaling mode instantly removes limescale and prevents clogging of the vacuum cleaner pipe.

Double water tank

The vacuum cleaner is equipped with 2 tanks: for clean water with a capacity of 1600 ml and for dirty water - with a capacity of 1400 ml. As a result, the dirty water returns to a separate container, and you can be sure that the surfaces in your home are thoroughly cleaned.

Included

- vacuum cleaner
- set of tips x5
- tip holder
- hose clip x4
- clean water tank
- dirty water tank
