HOTWAV Cyber 15 - The Ultimate Rugged Performance Smartphone

The HOTWAV Cyber 15 is a premium rugged smartphone designed to bridge the gap between extreme durability and high-end performance. Featuring a powerful Helio G99 processor, an incredible 24GB of RAM (12GB physical + 12GB virtual), and a massive 200MP camera, this device is built for those who demand excellence in every environment. Whether you are an adventurer or a professional, the Cyber 15 offers the reliability you need for everyday challenges.

Durable Design and Dual-Screen Interaction

At just 12.8mm thick and weighing 292g, the Cyber 15 maintains a sleek profile while meeting IP68, IP69K, and MIL-STD-810H military standards. The 6.6-inch FHD+ main display features a 120Hz refresh rate and 2K resolution, protected by Corning Gorilla Glass 3. Additionally, a secondary 1.45-inch touchscreen on the back adds a new dimension of interaction, allowing you to manage notifications, calls, and music without flipping the phone.

Unparalleled Photography

Equipped with a 200MP ISOCELL main camera using PixSmart AI-Boost, the Cyber 15 captures stunning detail even in challenging light. The setup is complemented by a 24MP night vision camera for total darkness and a 32MP Sony front camera for professional-grade selfies. Smart-ISO Pro and HDR modes ensure vibrant colors and high dynamic range in every shot.

High-End Specs and Reliable Power

Powered by the 6nm Helio G99 chipset, this smartphone handles multitasking and gaming with ease. With 256GB of internal storage (expandable up to 2TB) and a 6280mAh battery, you have the space and power for long hours of use. The device supports 33W fast charging and 10W reverse charging to power up your other gadgets on the go.

Features:

- Helio G99 Octa-core processor for smooth performance.
- 24GB RAM (12GB + 12GB Virtual) and 256GB ROM.
- 6.6-inch 2K 120Hz main display and 1.45-inch rear display.
- 200MP main camera and 24MP night vision camera.
- 6280mAh battery with 33W fast charging.
- Military-grade durability (IP68, IP69K, MIL-STD-810H).
- Android 13 with face and fingerprint unlocking.

HOTWAV Cyber 15 smartphone (black)

The HOTWAV Cyber 15 is a premium smartphone that redefines the concept of multifunctionality and performance. Equipped with a powerful Helio G99 processor, 24GB of RAM, a 2K resolution screen, and a 200MP camera, the Cyber 15 is the perfect combination of style, power, and innovation. Every element of this device has been designed to offer you an experience you have never had before. This smartphone is a reliable companion for everyday challenges and adventures that are worth capturing.

Unmatched style and durability

The HOTWAV Cyber 15 attracts attention with its slim profile (12.8 mm thick) and lightweight design (only 292 g). Its unique design emphasizes its luxurious character. The device is equipped with durable Corning® Gorilla® Glass 3, which protects the screen from scratches and impacts while ensuring excellent image quality. In addition, it meets IP68 and IP69K standards as well as MIL-STD-810H, making it resistant to water, dust, high pressure, and extreme temperatures. It is a true warrior in the world of smartphones that will not let you down even in the most difficult conditions.

A double dimension of interaction

The Cyber 15 features an impressive 6.6-inch FHD+ display with 2K resolution (1080x2408), which provides incredible image clarity and vivid colors. With a refresh rate of 120 Hz, every movement on the screen is smooth, making it the perfect choice for gamers and multimedia enthusiasts. A second 1.45-inch touchscreen on the back of the device adds a new dimension of interaction—it allows you to control apps, answer calls, check notifications, and monitor your energy status or step count. It's a practical solution that makes life easier and increases efficiency.

Perfect photos in all conditions

The HOTWAV Cyber 15 takes mobile photography to the next level. The 200MP ISOCELL main camera with PixSmart AI-Boost technology delivers unparalleled photo quality, capturing the finest details in every shot. With the smallest pixel size on the market at 0.56µm, the camera captures more light, resulting in better photos in low light conditions. Super QPD Autofocus technology ensures fast and accurate focusing, while Smart-ISO Pro and Staggered HDR modes offer a wide

dynamic range and rich colors. In addition, the 32MP Sony front camera and 24MP night camera ensure that every moment is captured in perfect quality, regardless of the conditions.

Reliable power for the whole day

Under the hood of the Cyber 15 is a 6nm, octa-core Helio G99 processor that delivers exceptional performance and smooth operation. With 24GB of RAM (12GB RAM + 12GB of expandable VRAM) and 256GB of internal storage, the device is ready for any challenge, from intense multitasking to demanding games and applications. The 6280mAh battery provides long hours of operation on a single charge, and the 33W fast charging feature allows you to recharge quickly. The 10W reverse charging feature allows you to charge other devices when needed.

A system full of modern solutions

The Cyber 15 also features advanced security and usability features such as face and fingerprint unlocking, glove mode, and DuraSpeed, which optimizes device performance and extends its lifespan. Android 13 provides the latest features and security, enabling a personalized and secure experience.
