

ROMOSS Solar Powerbank 30000mAh 65W Black

Modelis: SPB30-171-2133H

Gamintojas: ROMOSS

EAN: 6958377516812

Prekės kodas: 21739

134.00€

ROMOSS Solar Powerbank 30000mAh 65W Black.

ROMOSS Solar Powerbank is an indispensable device for those who value mobility, reliability and modern technology. With fast charging, high capacity, innovative solar panels and the highest safety standards, this powerbank will meet the expectations of even the most demanding users. Try the ROMOSS solar powerbank and enjoy uninterrupted energy anywhere!

Unmatched power and charging speed

Meet the ROMOSS Solar Powerbank with an impressive 30000 mAh capacity and 65W of power, designed to meet all your energy needs. Thanks to its fast charging technology, this powerbank allows you to charge your devices in no time, keeping you connected all day long. In just 30 minutes of charging, the powerbank will provide energy for a full day of use.

Innovative solutions for maximum versatility

The ROMOSS Solar Powerbank is equipped with 6 solar panels for faster natural self-charging. In addition, the detachable solar panels allow dual use - you can use the powerbank both outdoors and indoors. The innovative detachable panels provide versatility, ideal for hikes in the mountains or other outdoor activities. The solar panels offered by the powerbank give you the ability to get additional power - up to 9W in total.

Highest level of safety

The safety of your devices is a priority, which is why the ROMOSS solar powerbank has multiple safety certifications, including CE, EMC, UKCA, ROHS 2.0 and GB4943.1. This guarantees the highest protection against surges, overheating and short circuits. In addition, the powerbank is resistant to water, fire and dust, making it a reliable companion in all conditions.

Versatile compatibility and multitasking capability

The ROMOSS powerbank is compatible with multiple fast charging protocols, including QC, FCP, AFC, SCP, VOOC, PD, BC and PPS. You can charge up to three devices simultaneously thanks to three ports (USB-C 65W and two USB-A 20W ports). The powerbank charges your MacBook Pro 13" M1 up to 32%, iPhone 15 Pro up to 58%, and Samsung Galaxy S23 Ultra up to 60% in just 30 minutes, providing efficient power management for all your devices.

Durability and mobility

Despite its impressive capacity, the ROMOSS solar powerbank is lightweight and portable. Its compact size allows for easy storage in a bag or backpack, making it the perfect companion for any trip. The solar panels are made of tempered glass and waterproof resin, ensuring durability and resistance to harsh weather conditions. From now on, let nothing limit you!
