### Darflash FT350 computer case + 5 aRGB fans (black)

Darkflash FT350 is a compact computer case designed for users who appreciate both aesthetics and functionality. It is equipped with three transparent tempered glass panels and five ARGB fans, so it perfectly combines cooling performance with a modern gaming design. It's also compatible with a wide range of popular components, so you can build a computer perfectly suited to your needs.

### Robust and spacious design

The FT350 case is made of durable metal (0.5 mm SPCC steel), which ensures its stability and strength. Despite its small size, it is very spacious - it allows you to mount a graphics card up to 330 mm long, a PSU up to 160 mm long and a CPU cooler up to 157 mm high. It also features compatibility with M-ATX and ITX motherboards. All this makes it easy for you to assemble a high-

performance gaming or office PC!

## Advanced cooling system

The FT350 allows you to create an extensive heat dissipation system - it will accommodate up to 7 fans. You can also install 240 mm water cooling in it. All this will allow you to freely play dynamic games or create complex graphics projects - without worrying that the computer will overheat! What's more, you'll find five powerful ARGB fans included, which are distinguished not only by their high efficiency, but also by their modern, stylish design.

## Various storage options

The Darkflash FT350 enclosure can support two 2.5" SSDs or one 3.5" HDD, allowing you to flexibly customize your storage. This is ideal for those who plan to store a lot of files, such as photos, videos or documents.

## Key ports and buttons

The FT350's top panel features one USB 2.0 port and one USB 3.0 port for high-speed data transfer. So you can conveniently transfer files and connect peripherals of your choice! There is also an audio jack port, a Reset button and a power button.

## Unique panoramic perspective

The case is distinguished by three transparent panels made of tempered glass, so it provides a wide, panoramic view of the computer interior. Such a solution allows you to highlight individual components in an original way! For example, use components with RGB backlighting to give your equipment a unique gaming character.
