The PMT40 powerbank is equipped with a functional LED lamp with three light levels - low, medium and high. This is ideal for night hikes, camping or emergencies, providing an extra source of light whenever you need it. In addition, easily monitor the state of charge of the powerbank thanks to the clear led display. This allows you to conveniently monitor the device's operation and schedule a timely charge.

Advanced security features

The safety of your charged devices is a top priority. The PMT40 Romoss protects against short-circuit, overvoltage, overheating and overcharging, so you can charge your gadgets without worrying about their technical condition. This makes the PMT40 powerbank not only safe, but also up to 6x faster than other models. Bet on quality with Romoss!

Super-fast charging

Thanks to its 65W Power Delivery (PD) technology, the Powerbank PMT40 allows you to quickly charge the latest electronic devices. For example, in 30 minutes, the iPhone 14 Pro will charge to 65%, the Samsung Galaxy S23 Ultra will reach 56%, the iPad 2022 45%, while in 1.45h your Macbook Air will be fully charged. This is ideal for those who don't have time for long charging times. For delicate devices such as wireless headphones, the PMT40 offers a low-current charging mode, providing safe and efficient power without risking damage to your equipment.

Multi-port charging

The PMT40 powerbank allows you to charge up to three devices simultaneously thanks to its different ports: the Lightning port with a maximum input power of 18W, USB-C with an input and output power of 65W, and USB-A with an output power of 22.5W. It's perfect for people who use different devices on a daily basis.

Elegant and durable design

The PMT40's case is made of a material that is also used in MacBook cases, which guarantees not only an elegant design, but also exceptional durability and resistance to damage. Despite its impressive capacity, the powerbank is lightweight and handy, making it an ideal companion for
