power whenever you need it.

Multifunctional charging

With an output power of up to 280W, the Romoss PMT75-DC powerbank is capable of handling both small mobile devices and larger electrical devices. Equipped with multi-functional USB and DC ports, this powerbank allows you to charge smartphones, tablets, laptops and even smaller household appliances. It's the perfect companion for powering everything from small gadgets to equipment requiring more power.

Safe and durable charging

The PMT75-DC uses LiFePO4 batteries, known for their longevity and safety. This technology not only ensures stable charging, but also a longer life, making the powerbank great for frequent use in various conditions. An overheat, overvoltage and short-circuit protection function guarantees the safety of the user and devices.

Ergonomics and convenience

Despite its huge capacity, the PMT75-DC was designed with mobility in mind. Equipped with convenient carry handles, you can easily take it wherever you need extra power. Its solid construction and ergonomic design make it not only practical, but also aesthetically pleasing.

Included

- powerbank
- charging cable
- user manual
