Darkflash DY450 PRO computer case (black) + 1 fan

Darkflash DY450 PRO is a modern ATX-class computer case designed for hardware enthusiasts and gamers who value aesthetics and performance. Available in stylish black, it offers thoughtful space for the cooling system and advanced personalization features to maximize the customization of your PC.

Advanced temperature control

The DY450 PRO is equipped with a digital thermal management system that monitors the temperature of the CPU, GPU and case interior. This gives the user full control over cooling performance. The intuitive control panel on the front allows you to conveniently set the speed of the fans, which is especially useful during intensive work or long gaming sessions. Note: for full

functioning of the display it is necessary[download the driver from the manufacturer's website](#).

ARGB lighting for full personalization

The case features striking ARGB lighting with 23 built-in modes and the option to adjust the speed of the lighting effects. With a single press of a button, you can turn off the backlighting or switch between effects, making the computer interior look unique, especially when working at night.

Efficient cooling system

The Darkflash DY450 PRO offers a wide range of cooling options thanks to support for up to 7 fans with diameters of up to 120 mm and water cooling up to 360 mm. The case also supports graphics cards with a maximum length of 420 mm and CPU cooling with a height of up to 180 mm, allowing you to install high-performance components without compromise.

Modern connectors and practical I/O ports

Thanks to the presence of a USB-C 3.2 Gen 2 port and two USB 3.0 ports on the side panel, the enclosure allows fast data transfer and easy connection of the latest peripherals. The distribution of ports provides convenient access and full freedom.
