Darkflash DY451 PRO computer case (black) + 1 fan

Darkflash DY451L PRO is a modern ATX case designed for advanced users and gamers who are looking for both style and functionality. It features a spacious interior, solid workmanship and striking ARGB backlighting for full visual personalization.

Temperature control system

The chassis is equipped with a digital thermal management system that allows real-time monitoring of CPU, GPU and interior temperatures. Fan speeds are adjusted via convenient knobs on the front panel, allowing you to perfectly adjust the cooling to your current needs and load. Note: for full functioning of the display it is necessary [download the driver from the manufacturer's website](#).

Advanced ARGB backlighting

The DY451L PRO offers up to 23 ARGB backlighting modes with adjustable speed and lighting mode. Users can change the lighting effects at the touch of a button, customizing the appearance of the case according to their preferences and creating a unique atmosphere.

Spacious interior and efficient cooling

With support for up to 10 fans and a heatsink up to 360mm long, the case provides excellent air circulation and low component temperatures. It supports graphics cards up to 420 mm in length and CPU coolers up to 180 mm in height, making it ideal for high-performance gaming and professional configurations.

Modern I/O panel and USB-C connector

The side panel features two USB 3.0 ports and one USB-C 3.2 Gen 2 connector, which enables high-speed data transfer at up to 10 Gbps. These connectors ensure full compatibility with modern devices and make everyday computing easier.
