Darkflash DY451L PRO computer case (black) + 1 fan

The Darkflash DY451L PRO computer case combines modern aesthetics with functionality, designed for advanced software users and gamers who want superior cooling and an attractive appearance. With ARGB backlighting and a glass side panel, the case highlights the internal components, giving your computer workstation a unique look.

Intelligent temperature control system

The DY451L PRO chassis features a digital temperature management system with four-level fan speed control, which allows you to adjust the cooling according to your current needs. A front-panel screen displays the temperatures of the CPU, GPU and interior of the case, giving you full control over system cooling. Note: for full functioning of the display it is necessary to [download the driver](#)

State-of-the-art ARGB backlighting

With built-in ARGB lighting with 23 predefined light modes and four speed options, users can customize the lighting effects to suit their preferences. With a single press of a button, users can quickly change the mode or turn off the backlighting, allowing them to fully personalize the look of the case.

Spacious interior and extensive cooling

The Darkflash DY451L PRO supports up to 11 fans and water cooling with radiators as long as 480mm for excellent air circulation. The design allows seamless mounting of large graphics cards up to 420 mm and tall CPU coolers up to 180 mm, making it ideal for gaming configurations.

Rich I/O panel and USB-C connector

The case's side panel features two USB 3.0 ports and one 10 Gbps USB Type-C connector, making it easy to quickly transfer data and connect modern peripherals.
