BlitzWolf BW-AR1 (blue) smartwatch

The BlitzWolf BW-AR1 is an advanced smartwatch that will meet the expectations of the most demanding users. Equipped with a 1.43-inch AMOLED screen with a resolution of 466×466 pixels - it offers a clear and detailed image in any situation. The solid zinc alloy envelope ensures durability, while the powerful battery guarantees up to 10 days of use. There's also 1GB of internal memory, an NFC module, and many useful features such as heart rate measurement, sports modes and more.

Precise health monitoring

The BW-AR1 smartwatch is your personal health center. Its advanced sensors allow you to measure your heart rate around the clock, and it also measures blood pressure and oxygen saturation (SpO2), providing precise data in real time. In addition, the sleep monitoring function analyzes the quality of your rest. All this will help you lead a healthier lifestyle!

Multiple sports modes to choose from

Take care of your fitness. The smartwatch records data such as number of steps, distance, calories burned or pace, so you can keep track of your progress. You can also choose from a multitude of sports modes, such as running, cycling or walking. You're sure to find something to your liking! In addition, the built-in compass will help you orient yourself in space.

Stay in touch

Don't let yourself miss something important - the BW-AR1 will provide you with convenient access to notifications. The watch will also allow you to make phone calls via Bluetooth. It is equipped with a speaker and microphone, so you can answer or make a call without having to reach for your smartphone. It doesn't stop there, though - the smartwatch allows you to record audio, which means it will work well as a voice recorder, for example.

As much as 1 GB of memory for music, photos and more

The watch features 1 GB of internal memory, which allows you to store your favorite music, photos or e-books. So you can easily play music during workouts, view photos or read books directly on the display! With BW-AR1 you are in no danger of boredom.

Additional capabilities - NFC and AI voice assistant

The integrated NFC module allows quick and convenient operation of many functions, such as opening doors with simulated access cards. The smartwatch also offers an advanced AI voice assistant, with which you can conveniently check the weather forecast, make a phone call, ask for an address and much more.

Long runtime

The watch features a 400 mAh battery, which provides up to 10 days of use or up to 40 days of standby operation. What's more, the smartwatch charges wirelessly. To charge it to full, it doesn't take too long - about 2-3 hours is enough.

AMOLED screen

The large 1.43-inch AMOLED screen with a resolution of 466×466 pixels offers excellent image quality and comfortable operation. The intuitive interface and touch panel provide quick access to all functions, and the operation of the device is smooth and reliable. You can also customize the appearance of the display to your liking by choosing from a variety of available dial designs.

Waterproof and durable

High-grade zinc alloy is used to make the smartwatch, making the device lightweight yet durable. In addition, the TPU plastic strap is pleasant to the touch and skin-friendly. The BW-AR1 is also distinguished by its IP67 waterproof rating, so you can use it on a workout or in the rain without worry. Note: do not use the watch while swimming or bathing.

Included

- Smartwatch
- Wireless charger
- User manual
