### DOROSIN dehumidifier ER-1201

DOROSIN ER-1201 is a compact and efficient dehumidifier that will work well in rooms from 10 to 40 m<sup>2</sup>. Its ability to remove up to 12 liters of moisture per day makes it an indispensable tool in the fight against moisture, mold or unpleasant odors. With its sleek design and simple operation, it fits perfectly into any interior, providing not only efficiency, but also aesthetics. Also try the Smart Life or Tuya Smart app and manage your dehumidifier from your phone!

### High efficiency - removes up to 12 liters of moisture per day

ER-1201 is designed to effectively remove moisture from the air. In 24 hours, it is able to remove as much as 12 liters of water, which means it can perfectly handle bedrooms, living rooms and even basements. With this feature, you will not only improve the comfort of the room, but also protect your furniture, electronics and clothes from the harmful effects of moisture.

## **Energy efficiency in practice**

DOROSIN ER-1201 is a device designed for efficiency and low energy consumption. As a result, it consumes an average of 185W of power (at 27°C, 60% humidity), allowing it to operate around the clock with minimal impact on electricity bills. This solution allows you to enjoy dry and healthy air, without sacrificing environmental concerns or additional costs.

## **Mobile and minimalist design**

Thanks to its small size and modern design, DOROSIN ER-1201 will easily blend into any interior. In addition, the device is equipped with convenient handles and swivel casters, which allows it to be quickly and easily moved between rooms. Simply move it to where you need it most.

## **Quiet operation for maximum comfort**

DOROSIN ER-1201 operates extremely quietly - the noise level is only 41 dB. This makes the dehumidifier perfect for the bedroom, office or child's room, without disturbing sleep or daily chores. This is a device that effectively fights moisture, while providing a peaceful atmosphere in your home.

## **Smart notifications and simple operation**

The dehumidifier is also equipped with smart technologies that make it easy to use. An automatic alarm system lets you know when the water tank needs to be emptied, and an LED display allows you to quickly check operating parameters, such as the humidity level or the selected mode. In addition, the dehumidifier is equipped with sensors that display appropriate messages, such as "E1" or "E2" in case of abnormalities (such as temperature or humidity sensor errors). This way you can be sure that the device is always operating efficiently and safely.

## **Your health and comfort first**

Maintaining the right humidity level is the key to healthy living. With the ER-1201 dehumidifier, you will minimize the risk of mold and allergens developing. It's ideal for families with children, allergy sufferers and those who care about their family's health and comfort.
