Deerma DEM-P40 Pro cordless upright vacuum cleaner with mop function

The Deerma DEM-P40 Pro will comprehensively take care of the cleanliness of the surfaces in your home. It offers vacuuming, mopping functions and automatically cleans the brush with hot water at the base station. What's more, the green LED backlight makes it easy to spot dirt, and the reliable filtration system effectively traps dust. The kit also includes a variety of tips to help clean different types of surfaces.

Effective vacuuming and floor cleaning

With a suction power of 18,000 Pa and a motor running at 84500 rpm, the Deerma DEM-P40 Pro vacuum cleaner effectively picks up dust, dirt and spills. What's more, it sprays the surface with

water, so that, together with the improved design of the brush roller, you can get rid of stubborn dirt. In addition, the vacuum cleaner bends at an angle of 180°, and its thickness does not exceed 7 cm, which allows you to easily clean the surfaces under furniture. The device also copes well with dirt near the edges.

Efficient filtration

The device uses a cyclone system consisting of 7 elements, so it effectively separates dust from the air, and the vacuum cleaner works efficiently without reducing suction power. Moreover, the use of 3 types of filters helps to trap dust and particles preventing secondary air pollution.

Additional tips included

In the set you will find accessories that will allow you to take even more care of the cleanliness of surfaces. The mattress brush effectively removes dust mites, and the dander tip will work well for vacuuming sofas or armchairs thanks to the special comb and soft brush bristles. You'll use the 2-in-1 squeegee to clean hard-to-reach places and crevices.

LED backlighting

Enjoy even more cleaning performance. The Deerma DEM-P40 Pro uses green LED backlighting at a 65° angle over a distance of 1m and at the same time magnifies the particles on the floor. This ensures that no dirt escapes your attention.

Long run time

The vacuum cleaner is equipped with a long-lasting battery that allows for about 50 minutes of operation, which translates into up to 223 m³ of clean surface. When the need arises, place the DEM-P40 Pro in the docking station and the device will start charging automatically.

Refined details

The Deerma DEM-P40 Pro has been designed with attention to detail. The dedicated station allows the brush roll to be washed in 70°C water and then dried (60°C), preventing bacterial growth. A large
