

Darkflash DH240D CPU water cooler (white)

Modelis: DH240D WHITE

Gamintojas: DARKFLASH

EAN: 4711527000911

Prekės kodas: 21898

76.99€

Darkflash DH240D CPU water cooling (white)

Darkflash DH240D is an advanced water cooling that combines a modernistic design with maximum performance and quiet operation. Its compatibility with both Intel and AMD platforms makes it an ideal choice for any computer. The integrated segmented LED screen provides a convenient preview of the cooling operation, and with ARGB lighting for ASUS, MSI and GIGABYTE motherboards you will get spectacular visual effects. The water block's copper base effectively dissipates heat, working with a 240mm aluminum heatsink and two powerful PWM fans for both optimal airflow and quiet operation. Bet on the Darkflash DH240D - a reliable cooling that will highlight the character of your PC and allow you to get the most out of it!

ARGB integration and a clear segmented screen

With the Darkflash DH240D, you gain full integration with the popular RGB LED Sync lighting systems used on motherboards from ASUS, GIGABYTE and MSI. This makes it easy for you to sync the lighting effects and get a spectacular visual experience that enhances the character of your PC. The ARGB effects will make your hardware look modernistic and original in any interior. The integrated segmented screen displays CPU cooling data in detail. Thanks to its low power consumption and high readability even in low light, the screen instantly informs you about the most important cooling parameters. The displayed data is clear, legible and always under control, allowing you to react quickly and optimize the computer's performance for your work.

Universal compatibility

Whether you use an Intel or AMD platform, Darkflash DH240D guarantees full support for the latest processors from both manufacturers (Intel LGA2011/2011-V3/2066/1366/115X/1700, AMD FM1/FM2/FM2+/AM2/AM2+/AM3/AM3+/AM4+/AM5). This versatility gives you complete configuration freedom and provides you with a future-proof solution that will work even after you purchase a new computer kit.

Solid construction for maximum performance

Dual construction and a precision-engineered pump impeller provide significant improvements in cooling stability and longevity. This means less vibration, lower noise and higher efficiency, even under intense load. The Darkflash DH240D will easily meet the demands of gamers as well as professionals involved in video processing, graphics or streaming.

High-quality copper water block

The base of the water block made of pure copper ensures excellent heat conduction, which translates into fast dissipation of heat energy from the processor. As a result, your computer maintains a stable temperature even during hours of work or intense gameplay.

Cooling at the highest level

The powerful 240-millimeter aluminum heatsink provides excellent heat exchange, ideally suited for overclocking the CPU, which is crucial during intensive computer operation. Two 120-millimeter PWM

fans, whose speed is adjustable from 800 to 2,000 RPM, provide optimal airflow (59.1 CFM) and high static pressure (1.73 mm-H₂O), guaranteeing top-level performance.

Efficient and quiet operation

The Darkflash DH240D is a solution that offers quiet operation without sacrificing high functionality. The 3200 RPM pump generates a noise level of just 23 dBA, while the fans generate up to 30 dBA. This makes the cooling quiet yet effective, which will prove especially useful in home and office environments where quiet operation is particularly important.

Included

- Intel/AMD backplane
- thermal paste
- AM5 screws x4
- Intel bracket x2
- AMD bracket x2
- Intel 115x spacer screws x4
- Intel 20xx spacer screws x4
- Intel 1700 spacer screws x4
- mounting screws x4
- mounting screws x4
- rubber washers x4
- AMD clips x4
- ARGB PWM 120 mm fan x2
- fan mounting screws x8
- heatsink mounting screws x8
- USB-C to USB 2.0 cable
- PWM hub
- user manual

Model	DH240D
Water block size	97.2 x 67.5 x 68.55 mm
Pump speed	3200 ±10% RPM
Voltage	DC12V
Noise level of the pump	23 dBA ±10% (at a distance of 1 m)
Heatsink size	274 x 120 x 27 mm
Cable length	400 mm
Size of fans	120 x 120 x 25 mm (x2)
Fan speed	800 ~ 2000 ±10% RPM
Airflow	59.1 CFM
Static pressure	1.73 mm-H2O
Noise level of fans	30 dBA ±10% (at a distance of 1 m)
Bearing type	Hydro Bearing
Service life (MTTF)	40,000 hours
Display type	Segmented LED screen
Color	White
