

EUREKA E20 Plus cleaning robot

Modelis: E20 Plus

Gamintojas: EUREKA

EAN: 6956079727727

Prekės kodas: 21912

280.99€

EUREKA E20 Plus cleaning robot

The Eureka E20 Plus is the latest generation of cleaning robots, combining powerful suction power, advanced DuoDetect AI™ 3D navigation and a mopping function with a 10mm mop lift. Automated cleaning has become even more efficient and convenient with a bagless self-emptying base and precise multi-level mapping. This unit is designed to provide maximum convenience and cleanliness without compromise.

8,000 Pa of suction power - outstanding cleaning performance

The E20 Plus offers an impressive 8000 Pa of suction power, a twofold improvement over the earlier E10s. With this power, the device easily removes even the toughest dirt, such as sand, hair and food particles. The four-stage suction power adjustment allows you to tailor the mode to different surfaces, providing excellent results on both hard floors and carpets.

DuoDetect AI™ 3D - obstacle avoidance and precise navigation

The E20 Plus is equipped with advanced DuoDetect AI™ 3D technology, which acts like the robot's "eyes," precisely identifying obstacles in real time. This allows the robot to effectively avoid furniture, wires and other obstacles, minimizing the risk of blockages. Enhanced Night Vision provides equally effective cleaning in low-light conditions, making it ideal for night cleaning.

Mopping and mop lifting

The robot offers simultaneous vacuuming and mopping, and with a 10mm mop lift feature, you don't have to worry about getting your carpets wet. When the robot detects a carpet, it automatically lifts the mop, ensuring safe and effective cleaning of both hard floors and mixed surfaces.

Self-emptying base - bagless cyclone system

The E20 Plus features a bagless self-emptying base with multi-cyclone technology that effectively separates up to 98% of dirt before it reaches the filter. The 2-liter dust container allows for 45 days of maintenance-free cleaning, eliminating the need for frequent emptying. And with the base's transparent housing, you can always see when emptying is necessary.

Powerful battery and long run time

Powered by a 5200 mAh battery, the robot can run for up to 180 minutes on a single charge. This is enough to thoroughly clean an area of up to 300 sq. m. When the cleaning is finished or the battery is low, the robot automatically returns to the docking station to recharge and continue working from where it left off.

Multi-level mapping and cleaning personalization

With its multi-level mapping feature, the E20 Plus can remember up to 4 different maps, making it ideal for storied homes. In the Eureka app, you can set up no-go zones, designate specific areas to clean, and create personalized schedules. The robot is also compatible with Alexa, Google Assistant and Siri, allowing for voice control.

Advanced filtration system and quiet operation

The E20 Plus has a five-stage filtration system that effectively captures dust, allergens and particles down to 0.3 microns in size, ensuring fresh and clean air. Despite its power, the robot operates with a noise level of only 65 dB, making cleaning almost unnoticeable.

Practical features and intuitive operation

The innovative lifting handle makes it easy to carry the self-emptying base, and the improved edge cleaning function takes care of hard-to-reach areas such as corners and spaces near baseboards. With the app, you can quickly and easily adjust the robot's settings to suit your needs, receiving notifications when the water level is low or the dust tank is full.

An ideal choice for large homes and pet owners

With its suction power, anti-tangle technology and advanced mopping function, the E20 Plus is ideal for large homes and families with pets. The specially designed main brush minimizes the problem of hair entanglement, and the high cleaning efficiency guarantees perfect results every time.

Included

- Docking station
- Robot
- User manual
- HEPA filter *2 (1 installed)
- Side brushes *2
- Main brush (1 installed)
- Mopping pads *2 (1 installed)
