Pagrindinės savybės

- ✓ Excellent reliability and endurance
- ✓ Save time and money
- ✓ High speed & high print quality
- ✓ Low maintenance, reduced downtime
- ✓ Easy integration
- ✓ Ink pouches
- ✓ Legal Statement

Aprašymas

The ultimate industrial printer to produce high-quality colour labels in-house and on-demand in high volumes.

The C8000 is the ultimate in industrial colour label printing. Manufacturers can now reliably and cost-effectively meet their in-house labelling needs with outstanding speed and quality. The C8000 can also help eliminate the costs associated with pre-printing by producing short-run, customised labels on demand.

Reliable and consistent results

The C8000 can help manufacturers produce consistent, high-quality labels in-house and on-demand. The printer features the PrecisionCore printhead to ensure reliable, high-quality results. Our unique Nozzle Verification Technology (NVT) and dot substitution help prevent misprints and dead pixels for consistent printouts.

Fast speeds

Produce a range of high-quality labels, fast including those for food and beverage products, packaging and boxes, as well as EU Energy Labels and GHS Labels. With print speeds of up to 300mm/sec, you can now print labels in full colour, at the same speed as some incumbent thermal monochrome printers.

Cost-effective

Printing labels on-demand helps eliminate costs associated with pre-printing, such as label waste and large label inventory. High-capacity ink pouches offer low cost per print. The permanent printhead offers significant cost savings, and peace of mind as none of its major components will need replacing for at least 500km worth of printing¹.

Easy to use with minimal maintenance

With its LCD control panel, set-up is easy. ESC/Label allows integration with virtually any operating system. In addition, the device comes with a full range of software utilities to support printer deployment, while NVT helps to prevent clogged nozzles. Extensive connectivity options and cloud printing support enable PC-less configurations.

Flexible

The C8000 offers the flexibility to print on a variety of media types, including matt and gloss paper, film and synthetic, supporting print widths from 1 to 4 inches. The adjustable platen gap allows thick media such as price tags or floral labels to be used.

Less downtime

All operations, such as paper loading, ink replacement, and printing operations can be performed from one side. In addition, large ink pouches help to print longer without stopping.

Techninė specifikacija

Printing	
Print technology	Inkjet
Colour	Yes
Maximum resolution	600 x 1200 DPI
Print speed	300 mm/sec
Maximum printing width	11.2 cm
Printing colours	Black, Cyan, Magenta, Yellow
Paper handling	
Maximum label length	1.016 m
Supported paper width	25.4 - 112 mm
Ports & interfaces	

Connectivity technology	Wired & Wireless
Ethernet LAN	Yes
USB port	Yes
USB 2.0 ports quantity	1
Design	
Product colour	Black, Grey
Display	LCD
Built-in display	Yes
Weight & dimensions	
Width	620 mm
Depth	392 mm
Height	430 mm
Packaging content	
Cables included	AC, USB
Cartridge(s) included	Yes
Matmenys ir svoris	
Matmenys (I × P × A)	82,00cm × 61,00cm × 56,00cm
Svoris	44,50kg
