Aprašymas

On top of standard iRMC features, the iRMC Advanced Pack additionally provides the functions Advanced Video Redirection (AVR) and Remote Storage

Advanced Video Redirection (AVR)

- System-independent graphics and text console redirection, including the keyboard and mouse
- Remote access to permit boot monitoring, BIOS administration and interaction with the operating system

Remote Storage

Remote Storage makes available to the managed server a virtual drive which is located elsewhere in the network.

The virtual drives provided by Remote Storage are as easy to use as local drives and offer the following options:

- Reading/writing of data
- Booting from Remote Storage
- Installation of drivers or small applications
- Remote BIOS update (BIOS update via USB)

Remote Storage permits simultaneous connection of up to two virtual drives and supports the following types of device:

- Floppy disk
- CD-ROM / DVD-ROM
- USB memory device (e.g. Memory Stick)
- ISO image

This order number could be used for iRMC S4 and iRMC S5 Systems.
