AMD Ryzen 7 7700 5.3 GHz AM5 Desktop Processor (Tray)

Experience the power of the next generation with the AMD Ryzen 7 7700 desktop processor. Built on the revolutionary Zen 4 architecture, codenamed Raphael, this CPU delivers exceptional performance for gaming, content creation, and demanding multitasking environments.

The Ryzen 7 7700 operates on the cutting-edge AM5 platform, ensuring long-term compatibility and access to modern technologies like DDR5 memory and PCIe 5.0 connectivity (requires compatible motherboard, not included). Reaching boost speeds up to 5.3 GHz, this processor ensures lightning-fast responsiveness for even the most intensive applications.

Key Performance Features:

- **High Clock Speeds:** Base and boost frequencies reaching up to 5.3 GHz for superior single and multi-threaded performance.
- **Modern Architecture:** Utilizes the advanced AMD Zen 4 (Raphael) core architecture for significant efficiency and speed improvements over previous generations.
- **AM5 Compatibility:** Designed exclusively for the AMD AM5 socket platform, offering future-proof connectivity.
- **Flexible Cooling Solution:** This product is supplied in a tray format, without a stock cooler, allowing experienced builders to select a premium aftermarket cooling solution tailored to their specific performance needs.

The AMD Ryzen 7 7700 is the ideal choice for builders seeking a powerful and efficient CPU upgrade who already possess or plan to purchase a high-performance cooling system.

AMD (Advanced Micro Devices) is a global semiconductor company known for developing high-performance computing and visualization products, including central processing units (CPUs), graphics processing units (GPUs), and chipsets. AMD is a leader in advancing the PC platform with its innovative Ryzen technology.
