CPU delivers the computational power necessary to accelerate production and innovation in specialized fields.

Designed specifically for high-end workstations, the Threadripper Pro 9955WX ensures that critical applications run smoothly and efficiently. Whether compiling large code bases, running complex simulations, or handling enormous datasets, experience performance without compromise thanks to the substantial clock speeds up to 4.5 GHz.

Key Features and Specifications:

- **Extreme Processing Power:** Operates at substantial clock speeds up to 4.5 GHz, ensuring rapid execution of complex tasks.
- **Shimada Peak Architecture:** Utilizing AMD's latest professional architecture for superior efficiency and data throughput.
- **sTR5 Socket Compatibility:** Designed exclusively for modern, high-core-count workstation platforms supporting the sTR5 interface.
- **Professional Series (Pro WX):** Optimized for mission-critical applications, large-scale rendering, and demanding creative workloads.
- **Packaging Detail:** This is a boxed processor supplied without a cooler, requiring users to select an appropriate high-performance thermal solution suitable for the sTR5 platform.

AMD (Advanced Micro Devices) is a global semiconductor leader renowned for pushing the boundaries of high-performance computing, offering innovative CPU and GPU technologies for gaming, data centers, and professional workstations.
