Logitech Tap delivers one-touch join, easy content-sharing, and center-of-room control to meeting rooms, promoting a consistent user experience for deployments running Google Meet, Microsoft Teams Rooms, Zoom Rooms, or other video conferencing services.

Flexible cabling allows Tap to be placed near participants for convenient operation while installing the host computer in a cabinet, beneath a table, or behind a display. An integrated strain relief and cable management system keeps connections tight. And, multiple mounting options provide optimal visibility while keeping meeting room appearances clean.

With its spacious 10.1" touchscreen, silent operation, and high-uptime design innovations, Tap makes for a perfect fit in small, medium, and large meeting rooms with Logitech Room Solutions.
