Pagrindinės savybės

- ✓ Gaming
- ✓ USB Mechanical Kailh Box Brown V2
- ✓ QWERTY US International
- ✓ Tenkeyless (80 - 87%)
- ✓ Windows keys Adjustable keyboard height
- ✓ Backlight RGB LED Multicolour
- ✓ White
- ✓ 3 pc(s)

Aprašymas

New incarnation of a legend. Welcome the Genesis Thor 404 TKL - the successor to the acclaimed and award-winning Genesis Thor 303 TKL. A completely new design (non-floating key), Kailh Box Brown V2 switches for lightning-fast response and Hot-Swap technology for tool-free mechanism replacement are not the only advantages. New, better, more advanced. This is the Genesis Thor 404 TKL.

NEW SWITCHES. MORE PRECISION

Do you expect smooth movement and dynamics to dominate your opponents? We understand this well, which is why we equipped the Genesis Thor 404 TKL with advanced Kailh Box Brown V2 switches with non-linear characteristics. With a durability of 80 million clicks, 2mm post-press activation and a pressure force of just 55g, and that's not all. Combined with a response time of 1 ms, the Kailh Box Brown V2 offer a much better experience compared to the classic Kailh Box Brown. You can feel the switch return to the initial position more strongly and have greater clarity. Want to

improve your gaming performance? You can count on them.

DETAILS THAT MAKE A DIFFERENCE

Switches are one thing. But we didn't forget about key components such as stabilizers and lubrication. It is thanks to them that we were able to raise the performance of the Kailh Box Brown V2 to the maximum. The result? Smoother switch operation and quieter performance in any situation.

REPLACE THE SWITCH IN JUST SECONDS

Want to replace a switch, all without additional tools or technical knowledge? Meet the Hot-Swap technique, which will allow you to do it in just a few seconds. Thanks to it, you will not only adjust the operation of the keys to your preferences, but also prolong its operation by replacing the mechanism with a completely new one. Simple, right?

QUIETER THAN USUAL

Are you tired of noise? To meet the expectations of demanding users, inside the Genesis Thor 404 TKL we have placed a special soundproofing foam that absorbs vibrations and dampens key strokes during the most dynamic actions. With Genesis Thor 404 TKL night games become possible.

EXECUTION THAT SURPRISES

Greater key stability and more compact design. Experience the advantages of a closed chassis that will not shift from its place even during the most dynamic actions. What's more, the device's massive frame also means no flexing of the design under heavy pressure. The keys? We didn't forget about them either. Classic contouring and manufacturing with Double - Shot technology are a guarantee of trouble-free operation for a really long time. Looking for a keyboard for years to come? Genesis Thor 404 TKL will meet your expectations.

Techninė specifikacija

Specifications	
Sandėlio grupė	Peripherals, consumables, UPS > Keyboards [+0][-0]
Keyboard	
Recommended usage	Gaming
Connectivity technology	Wired
Device interface	USB
