The myPhone Hammer Construction eSIM is the ultimate rugged smartphone designed specifically for professionals working in harsh environments, such as construction sites, workshops, and demanding outdoor conditions. Combining extreme durability (IP69 certification) with powerful features like an integrated laser distance meter, this device ensures you stay connected and efficient no matter the challenge.

Powerful Performance and Capacity

Equipped with the robust MediaTek Helio G85 processor and a generous 6GB of RAM, the Hammer Construction handles demanding applications and multitasking effortlessly. The 128GB internal storage provides ample space for large construction plans, photos, and crucial data. It runs on the user-friendly Android 12 operating system, ensuring security and accessibility.

Essential Features for the Field

This smartphone stands out with its specialized tools. The integrated laser distance meter allows for quick and accurate measurements, saving time and the need for separate equipment. High-resolution 16MP and 8MP cameras capture detailed site progress photos and reports. Enhanced connectivity through LTE, NFC for fast payments, and support for eSIM technology maximize flexibility.

Key Specifications:

- Display: 6-inch HD screen, designed for visibility in challenging light.
- Durability: IP69 rating, offering maximum protection against dust ingress and high-pressure, high-temperature water jets.
- Processor: High-performing MediaTek Helio G85 chipset.
- Memory: 6GB RAM and 128GB internal storage.
- Cameras: 16MP primary camera plus 8MP secondary sensor.
- Connectivity: LTE, NFC, and dual connectivity with physical SIM and eSIM support.
- Special Tool: Integrated laser distance meter (dalmierz laserowy).
- Operating System: Android 12.
