Aprašymas

Want to increase the functionality of the GENESIS Holm Modular desk? Choose the dedicated 30 cm wide side panel and create your own space. Full compatibility with the expandable frame and fixed part of the tabletop, high quality and instant assembly are the features that set it apart.

MADE FOR GENESIS HOLM MODULAR

Forget about the inelegant joining and covering the countertop with a pad. We've made sure that connecting the panels to the fixed, center section is completely aesthetically pleasing. Do you need a custom size? Want to make the desk smaller on one side? No matter which option you choose, a dedicated module will allow you to organize the space the way you want.
