

## OBSBOT Tiny 2 webcam

Modelis: OWB-2204-CE

Gamintojas: OBSBOT

EAN: 6971889230328

Prekės kodas: 352299

# 381.98€

### OBSBOT Tiny 2 webcam

Fantastic 4K image quality, smart AI features and gesture control are just some of the advantages of the OBSBOT Tiny 2 webcam. The device also supports voice control and can track your movements, keeping you in the frame. All this makes it perfect for a variety of tasks - it will be an ideal choice for streaming, online training, creating YouTube videos and more. The kit also includes an adjustable mount for stable camera mounting and a practical storage case.

### Stunning image quality

The camera is equipped with a large 1/1.5-inch CMOS sensor, which allows it to capture detail-saturated video in 4K resolution. It also provides vivid, natural colors, and thanks to Dual Native ISO technology, it will perform well both during the day and after dark - different ISO settings guarantee great quality in almost any lighting conditions. In addition, PixGain HDR offers faithfully reproduced, realistic images, and All-Pixel Auto Focus enables fast and efficient focusing even in low light.

## Various options to choose from

The Tiny 2 camera offers a special Beauty mode to make you look perfect in every frame. You can also enable or disable background blur. Convenient parameter adjustment and feature selection is provided by the OBSBOT WebCam app - with its help you can easily get exactly the effects you want!

## Impressive performance, privacy protection

The USB 3.0 interface provides fast transmission and wide bandwidth, allowing you to transmit 1080p video without any compression or re-encoding. What's more, when you point the camera down, it can display an image of your choice to meeting participants or those watching the broadcast, for example, with a short message. This way you can easily convey an important message to your audience or take care of your privacy if needed!

## Natural sound

The Tiny 2 will help you take care not only of great image quality, but also of crisp, natural sound. The camera is equipped with an enhanced microphone system that captures clear, detail-saturated audio regardless of the environment. So you can be sure that your viewers will hear you without any problems!

## Try out the available AI features

You no longer have to worry about accidentally stepping out of frame during a live broadcast. The Tiny 2 camera uses advanced AI algorithms to effectively track objects and even automatically adjust the zoom to them. It is also possible to set a specific tracking area. In addition, the device offers the function of following hand movements - such a solution will come in handy during presentations, for example. In addition, the camera can automatically adjust the framing to a larger number of people - so every participant in the meeting will be perfectly visible!

## Even more convenient operation

Forget about having to go to the computer when you want to change the camera settings, for example. The Tiny 2 supports voice control - just give a short command to start tracking or zoom in! You can also control it with simple gestures - this way you can easily adjust the zoom and more. Also available for sale separately is the OBSBOT Tiny Smart Remote 2, which allows you to conveniently operate the camera from a distance.

## Various mounting methods

The kit includes an adjustable metal mount that allows you to stably mount the Tiny 2 camera. You can easily position it vertically or tilted, or even point it completely down - no need to limit yourself! You can also choose from various recording modes, such as Landscape, Downward, Upside-down or Portrait.

## Additional capabilities

The camera supports keyboard shortcuts and OSC (Open Sound Control). It is also compatible with Stream Decks, so you can conveniently manage live broadcasts. What's more, the Tiny 2 model works with SDK, allowing you to develop new features and expand its capabilities yourself.

## Included

- Webcam
- USB-C 3.0 cable and USB-C to USB-A 3.0 adapter
- Adjustable mount
- Case
