

OBSBOT Meet 2 webcam (white)

Modelis: OWW-2311-CE

Gamintojas: OBSBOT

EAN: 6971889230472

Prekės kodas: 352303

140.99€

OBSBOT Meet 2 webcam (white)

The OBSBOT Meet 2 combines advanced AI technology and a compact body, making it ideal for any space. Minimalist design and availability in several color variants, allow you to match the device to your individual preferences. The camera's light weight - just 40.5 grams (without the mount) - makes it easy to carry and mount in various locations without taking up valuable desk space.

Unparalleled 4K image quality

The camera is equipped with a 1/2-inch CMOS sensor and a bright f/1.8 aperture lens, allowing it to capture clear and detailed images even in difficult lighting conditions. The 4K resolution at 30 frames per second and the ability to record in Full HD 1080p@60fps ensure smooth and excellent image quality during videoconferences, live broadcasts or content recording. In addition, the HDR function improves contrast and color for realistic scene reproduction.

Intelligent framing and autofocus

OBSBOT Meet 2 uses artificial intelligence to automatically track the user in the frame. AI Auto Framing adjusts the shot depending on the number of people in the frame, switching between group, individual and close-up modes. The advanced PDAF autofocus system with 4x digital zoom makes sure that the image is always sharp and well framed, even during movement.

High quality audio and wide compatibility

The camera is equipped with two built-in omnidirectional microphones with noise cancellation and automatic sound amplification, allowing you to talk in noisy environments without losing sound quality. The OBSBOT Meet 2 supports horizontal, vertical and upside-down recording modes, and with support for Open Sound Control (OSC) and APIs, its integration with control systems and streaming platforms is possible.

Easy mounting and additional features

The camera can be mounted seamlessly on most tripods thanks to its 1/4" thread, and the magnetic mount makes it easy to adjust the recording angle. A built-in privacy shield keeps your data safe and secure, and a sleep mode allows you to adjust the screen background during breaks in use. The OBSBOT Meet 2 is the perfect solution for professionals, streamers and anyone who values high quality video and audio.
