

# Huion Kamvas Pro 16 GT156 graphics tablet

Modelis: GT156

Gamintojas: HUION

EAN: 6930444801205

Prekės kodas: 352356

## 412.99€

### Huion Kamvas Pro 16 graphics tablet

Do you want a tablet that gives you professional image quality and the convenience of working both at home and in the field? Meet the Huion Kamvas Pro 16 - the perfect combination of functionality and mobility. With a 15.6-inch Full HD screen, full lamination, matte glass and precision pen, this graphics tablet will meet the needs of illustrators, conceptual graphic designers and digital drawing enthusiasts. It is lightweight, slim and ready to accompany you in any situation.

### A screen where you see more

The Kamvas Pro 16 offers 1920 x 1080 px resolution on a 15.6-inch screen, giving you optimal workspace without compromising on mobility. Colors are juicy and faithfully reproduced thanks to 120% sRGB coverage and a depth of 16.7 million colors (8-bit). This means that the colors of your work will look natural and crisp.

## Details visible from every angle

With a 178° viewing angle, you can work comfortably from different positions, and the image will remain consistent and clear. The screen is covered with anti-reflective AG glass with a matte finish, which not only reduces glare, but also gives a pleasant, "paper-like" impression when drawing.

## Zero lag, full precision

The full lamination used makes the glass adhere perfectly to the LCD screen - eliminating air space and virtually completely reducing parallax. The cursor always precisely follows the movement of the stylus, allowing you to work with full accuracy - even with detailed sketches.

## A stylus that understands your hand

You'll find a PW507 digital stylus that doesn't require charging - it works with Battery-Free Electromagnetic Resonance technology. It offers 8192 levels of pressure, 5080 LPI resolution, >220 PPS reading frequency and supports  $\pm 60^\circ$  tilt. So you can shade, draw with different brush shapes and get natural, smooth lines without lag or vibration.

## Slim, lightweight and ready to go

The tablet weighs just 1.35 kg and is 11.5 mm thick, so you can easily fit it in your backpack or laptop bag. The aluminum casing not only looks good, but also increases durability and improves heat dissipation - something you'll appreciate during longer work sessions.

## Work without hindrance - at home and away

Kamvas Pro 16 is compatible with Windows, macOS, Linux and selected Android devices (USB 3.1 + DP1.2). The connection to your computer is via a 3-in-1 cable that combines power, data and video in one cable - keeping your desk tidy and easy to use.

## Shortcuts that make life easier

On the chassis, you'll find 6 programmable buttons that you can configure to suit your needs - such as for changing tools, zooming, undo or calling up a quick menu. The tablet supports both right- and
