

# Huion Kamvas 22 Plus GS2202 graphics tablet

Modelis: GS2202

Gamintojas: HUION

EAN: 6930444801762

Prekės kodas: 352358

## 571.99€

### Huion Kamvas 22 Plus graphics tablet

Looking for hardware that can match your precision? The Huion Kamvas 22 Plus is a graphics tablet for those who create in earnest - designers, illustrators, concept artists. With a 21.5-inch full HD screen, an impressive 140% sRGB color space and quantum-dot technology, it delivers incredible image quality and accuracy in rendering every stylus stroke. Add to that full lamination, anti-reflective glass and USB-C connectors, and you have a tool that fits naturally into your work rhythm. Check out what it can do!

### A screen that impresses

The Kamvas 22 Plus features a 21.5-inch IPS screen with a resolution of 1920 × 1080 px (Full HD) and an aspect ratio of 16:9. quantum-dot technology has achieved coverage of 140% of the sRGB color space, guaranteeing vivid, intense colors and impressive image depth. The 1200:1 contrast ratio further highlights details and chiaroscuro, while the 16.7 million (8-bit) color depth makes every

tonal transition look natural and smooth.

## **Realistic drawing experience**

Kamvas 22 Plus gives an incredibly realistic drawing experience - just like sketching on a piece of paper. This is thanks to the full lamination, which eliminates the gap between the screen and glass, and the matte, anti-reflective glass with etching finish, which not only protects against light reflections, but also gives a pleasant resistance under the pen - exactly like working on a traditional medium. Parallax is virtually imperceptible, so the cursor precisely follows every movement of your hand. And with a 178° viewing angle, you can look at the screen from either side and still enjoy a clear, consistent image - even in bright light.

## **Less fatigue for your eyes**

The low blue light technology used effectively filters out harmful blue light, reducing eye fatigue during long hours of work. This is especially important if you spend days drawing, designing or retouching.

## **A stylus that keeps up with your hand**

The Kamvas 22 Plus uses the PW517 pen created with PenTech 3.0 technology. Thanks to a lower magnetic core, the pen works precisely and steadily, without lag or vibration. You have 8192 levels of pressure, angle recognition up to  $\pm 60^\circ$ , and accuracy reaching  $\pm 0.3$  mm. All to make drawing shadows, lines and details as natural as possible.

## **Two USB-C ports and connectivity flexibility**

The tablet is equipped with two USB-C ports for connecting to a computer, laptop, console or Android phone. An additional USB-A port, on the other hand, allows convenient connection of peripherals such as a keyboard, flash drive or external drive. This allows the Kamvas 22 Plus to function as a screen extension or a standalone tool for work and entertainment - on a large 21.5-inch display.

## **Stable, ergonomic and ready to go**

The adjustable metal stand allows you to angle the screen from 20° to 80°. This allows you to comfortably adjust your body position and keep your spine comfortable while working. The slim case and weight of only 3.9 kg (with stand) make the tablet, although stable, still a relatively mobile tool for work.

## Compatibility without limits

Kamvas 22 Plus works with Windows 7 and later, macOS 10.12+, Linux and Android (USB 3.1 DP1.2). It supports popular graphics and design applications, so you can use Photoshop, Illustrator, Clip Studio Paint, Krita and many others without any problems.

## Included

- graphics tablet
- battery-free stylus
- stylus holder
- replaceable nibs (inside the stylus holder)
- pen nib clip (inside the stylus holder)
- power cord
- power adapter
- cleaning cloth
- USB-C cable
- user manual
- warranty card
