Cooler Master MasterBox 600 computer case (white)

MasterBox 600 is a spacious computer case designed to build modern kits based on ITX, Micro ATX, ATX or E-ATX standard motherboards. It also supports boards with an inverted connector layout (back-connector), which saves space at the front. The interior is designed for easy installation and wide compatibility - it will meet the expectations of gamers, graphic designers and more!

Multiple cooling mounting options

The chassis allows the installation of up to 420 mm of water cooling at the front, up to 360 mm at the top and 120 mm at the rear. It also allows the installation of up to seven 120 mm fans or five 140 mm fans - depending on your preference. Its added advantage is a FineMesh front panel with a mesh structure that improves airflow and helps maintain optimal temperatures. Forget about

computer overheating problems!

Four fans included

The MasterBox 600 comes pre-installed with three 140mm SickleFlow ARGB PWM fans on the front and one 120mm CF120 ARGB fan on the back. Each is ARGB-compatible and offers adjustable speeds for efficient and quiet cooling right out of the box. You'll also find an ARGB hub for the fans in the package.

Spacious interior

The MasterBox 600 supports graphics cards up to 410 mm in length (or 360 mm with front-mounted water cooling) and CPU coolers up to 170 mm in height. What's more, the built-in 3.5" hard drive cage is removable, making it easy to upgrade your setup and freeing up additional space for a power supply (up to 210 mm).

Even more conveniences

The case is equipped with two USB-A 3.2 Gen1 ports, one USB-C 3.2 Gen2x2 port and a 3.5mm combo jack. So you can freely connect the devices you need to it! In addition, the tempered glass side panel allows you to expose components, such as those with ARGB backlighting, and the well-thought-out space behind the motherboard tray (33-35 mm) facilitates aesthetic cable routing.

Manufacturer	Cooler Master
Model	MB600-WGNN-S00
Color	White
External materials	Steel, plastic
Side panel	Tempered glass
Dimensions (with protruding parts)	474 × 230 × 481 mm

Dimensions (without protruding elements)	465 × 230 × 465 mm
Motherboard standard	ITX / Micro-ATX / ATX (supports back-connector boards) / E-ATX (max. 305 × 277 mm, may affect cable management)
Expansion card slots	7
5.25" bays	None
3.5" HDD bays	2
2.5" SSD bays	2 (maximum 6)
Connectors	2x USB-A 3.2 Gen1, 1 × USB-C 3.2 Gen2x2, 1x combo jack 3.5mm
ARGB Hub	ARGB Fans Hub
Factory-installed fans	Front: 3x 140 mm SickleFlow140 ARGB PWM (650-1800 rpm); Rear: 1x 120 mm CF120 ARGB (650-1200 rpm);
Fan mounting options	Front: 3x 120 mm / 3x 140 mm; Top: 3x 120 mm / 2x 140 mm; Rear: 1x 120 mm;
Water cooling mounting options	Front: 120 mm / 140 mm / 240 mm / 280 mm / 360 mm / 420 mm (limit: 457 x 140 x 27 mm); Top: 120 mm / 140 mm / 240 mm / 280 mm / 360 mm; Rear: 120 mm;
Max. height of CPU cooler	170 mm
Max. PSU length	170 mm / 210 mm (after HDD cage removal)
Max. length of graphics card	360 mm / 410 mm (without water cooling on the front)
Space for cabling behind the motherboard tray	33-35 mm
Dust filters	Top, bottom
Power supply standard	ATX
