Cooler Master CH351 gaming headphones (black)

The Cooler Master CH351 gaming headphones are designed for gamers who use multiple platforms and need flexible, reliable audio equipment. This model offers up to three connection modes: low-latency 2.4GHz wireless, Bluetooth 5.4 and a classic 3.5mm connector. This makes it great for your computer, console, smartphone or laptop! The headphones also provide great sound quality thanks to 50-millimeter drivers, and have a runtime of about 30 hours.

Three connection options

You can connect the headphones in three ways: via Bluetooth, in the 2.4 GHz band and wired with a 3.5 mm cable. In 2.4 GHz mode, the signal range is up to 20 meters, and the transmission delay is less than 20 ms, allowing you to play comfortably without problems with audio and video

synchronization. It is also possible to connect to three devices simultaneously. Conveniently play on your console, take calls from your phone and listen to music from your computer! Switching of sources is very fast - you won't miss anything!

Realistic surround sound and full immersion

In wireless mode, the headphones offer 3D Surround Sound technology, which provides a more realistic representation of space - this is especially useful in FPS games, where directional sounds (footsteps, gunshots) are very important. The built-in 50mm drivers are responsible for fantastic audio quality, allowing you to enjoy rich detail and crisp bass.

Powerful battery

The integrated battery provides about 30 hours of operation at 50% volume. So you can freely play your favorite games, watch movies or take part in video conferences - without worrying that the equipment will drain too quickly. The headphones are charged via a USB-C port.

Detachable microphone with sidetone mode

The headphones are equipped with a detachable unidirectional microphone, set on an adjustable boom. So you can position it to be comfortable, or completely detach it when you don't need it! There's also a sidetone function (in wireless modes) that lets you monitor your voice in real time, making it easy to control the volume of your speech.

Comfort and durability

The design of the headphones is based on a padded headband with a steel core. The ear cups, on the other hand, are made of PU leather-covered memory foam, which improves noise isolation and ensures comfort even during long sessions. The ergonomic Y-Frame design fits snugly to the head and does not cause excessive pressure. In addition, components such as the microphone, pads and cable are detachable for easy transport and maintenance.

Manufacturer	Cooler Master
Model	CH-351
Color	Black
Transducer diameter	50 mm
Frequency response	20 - 20 000 Hz
Impedance	32 Ω
Sensitivity (@1kHz)	100 dB ± 3 dB
Max. input power	30 mW
Cable length	Approx. 1.8 m
Connection	Bluetooth 5.4, 2.4 GHz, 3.5 mm
Headband material	Steel, plastic, PU foam and leather cushion
Ear cup material	Memory foam + PU leather
Sidetone mode	Yes
Delay	20 ms (2.4 GHz)
Operating time	Approx. 30 hours (at 50% volume)
Charging port	USB-C
Wireless range	Up to 20 m (2.4 GHz)
Microphone directionality	Unidirectional
Microphone frequency response	100 - 8,000 Hz
Microphone sensitivity	-42 dB ± 3 dB
Microphone type	Detachable, flexible
Headphone dimensions	179.4 × 96.3 × 207 mm
Weight (without accessories)	Approximately 328 g
Total weight	Approx. 403 g

Color: black, Bluetooth version: 5.4, Operating time (min): 1800, Bandwidth : 20Hz-20kHz, Złącze ładowania: USB-C, Special features [eng]: Microphone , GPSR Link: https://psr-assets.innpro.pl/audio/sg_audio_headphones.pdf, Fast charging USB PD: No, Minimum charger power (W): 2.5, Maksymalna moc ładowarki (W): 5, Charger included: No, Gross weight: 823, Net weight: 403, Box length: 25,50, Box width: 22,00, Box height: 11,50
