EcoFlow RAPID Pro 320W Docking Station, 4xUSB-C, 1xUSB-A, GaN

The EcoFlow RAPID Pro is a compact and powerful docking station that allows you to charge up to six devices simultaneously. With a maximum output power of 320 watts, five available ports (4x USB-C, 1x USB-A - Universal Serial Bus type C and A) and a pogo pin connector for connecting powerbanks, the RAPID Pro is perfect for home or office use, as well as when traveling. The product is compatible with a wide variety of equipment, such as smartphones, tablets, smartwatches and laptops.

High charging power in a compact form factor

The GaN (Gallium Nitride, gallium nitride - a semiconductor technology for efficient charging) technology used achieves impressive performance while maintaining a compact size and low

operating temperature. Charge faster, without compromise - up to 140 watts from a single USB-C port. The total output power of the device reaches up to 320 watts. All this allows you to quickly charge several devices at once! The station also allows you to charge the EcoFlow RAPID Pro 27k powerbank in no time - up to 80% in just about 20 minutes.

One station, six charged devices

The EcoFlow RAPID Pro offers up to five ports (4x USB-C and 1x USB-A) and a special pogo pin connector for charging RAPID Pro series powerbanks. This allows you to easily power up to six devices at the same time - such a solution works well when working remotely, at home or while traveling.

Smart control from within the app

With the EcoFlow app, you can monitor charging parameters, adjust the power strategy to your needs, and use Battery Optimization mode to help extend the battery life of your charged devices. Gain full control of your energy wherever you are!

Advanced protection with X-Guard

The RAPID Pro station is equipped with the X-Guard security system with X-Core 3.0 chip. The built-in sensor takes up to 10 million temperature measurements per day, and intelligent BMS (Battery Management System) and EMS (Energy Management System) solutions ensure reliable operation even under heavy load.

Built-in display

The built-in 3.02-inch LCD (Liquid Crystal Display, or liquid crystal display) shows real-time power data - just take a glance! In addition, it allows you to personalize the standby clock theme and shows animations of the operating status. The station is also equipped with a convenient-to-use dial that makes it even easier to use.
