

## EcoFlow RAPID Pro 140W mains charger, 3xUSB-C, 1xUSB-A, GaN

Modelis: EFA-140W-GAN-CHARGER

Gamintojas: ECOFLOW

EAN: 4895251641500

Prekės kodas: 352413

# 76.99€

### EcoFlow RAPID Pro 140W mains charger, 3xUSB-C, 1xUSB-A, GaN

The EcoFlow RAPID Pro 140W is an extremely powerful yet handy mains charger that can quickly and safely charge up to four devices simultaneously. It boasts a maximum output power of 140 watts and uses GaN (Gallium Nitride, a semiconductor technology for efficient charging). It is also equipped with four ports - three USB-C (Universal Serial Bus type C, a universal connector for data and power) and one USB-A (Universal Serial Bus type A). Now one outlet is enough to power a whole set of devices!

### Ultra-fast charging with X-Stream technology

With up to 140 watts of power, the RAPID Pro charger enables ultra-fast charging - for example, a 13" MacBook Pro can be fully charged in less than two hours, and the RAPID Pro 27k powerbank will

reach 80% power in just about 40 minutes. This is a solution designed for maximum efficiency - it will work wherever time is of the essence!

## Four ports, full control

The RAPID Pro 140W offers three USB-C ports and one USB-A connector, allowing you to charge four devices simultaneously without the need for additional adapters. Whether you're at the office, at home, or on the go - now you only need one compact charger!

## State-of-the-art GaN technology

The charger uses advanced GaN technology to achieve high power with minimal dimensions. It also provides higher energy efficiency, less heating and longer device life.

## Designed with safety in mind

The RAPID Pro 140W is equipped with the X-Guard protection system with X-Core 3.0 chip, which makes charging not only fast, but also safe. The built-in sensor takes up to 7,500 temperature measurements per minute, minimizing the risk of overheating. In addition, the charger is very durable, and its housing meets VO fire resistance standards. It will serve you well for many years!
