

Cooler Master CMP510 ARGB computer case (black)

Modelis: CP510-KGNN-500

Gamintojas: COOLERMMASTER

EAN: 4719512118450

Prekės kodas: 352478

70.99€

Cooler Master CMP510 ARGB computer case (black)

The CMP 510 supports motherboards in ATX, Micro-ATX and Mini-ITX formats. It provides compatibility with graphics cards up to 350 mm in length and CPU cooling up to 161 mm in height. The case features a tempered glass side panel and an ARGB illuminated strip on the front, enhancing its gaming look.

Cooling that keeps up with your components

The CMP 510 allows the installation of up to six fans: three at the front, two at the top and one at the rear. It already comes with three factory 120mm fans with ARGB illumination mounted on the front. The case also supports water cooling - a 280 mm heatsink can be mounted on the front, up to 240 mm on the top, and 120 mm at the rear.

Optimal airflow

The front panel is made of metal mesh, which maximizes air intake into the case. The dust filters used on the top and bottom of the case protect the interior from dust without blocking airflow. This is especially important for computers that run for many hours a day - whether gaming or working under heavy load.

Design with character - ARGB and tempered glass

The front of the case features an integrated ARGB light bar, which gives the case a stylish look and can be synchronized with other ARGB components in the system. A side panel made of 4-millimeter tempered glass allows the computer's interior to be exposed, which looks especially good when combined with backlit fans, motherboard or RAM. The panel is mounted using screws with handles, which makes it easy to access the inside without additional tools.

Ample space and cable order

The CMP 510 will easily accommodate graphics cards up to 350 mm in length, CPU cooling up to 161 mm and a standard ATX power supply up to 160 mm in length. The case has two bays for 2.5"/3.5" drives and two additional bays for 2.5" SSDs, allowing for flexible storage management. The rear of the motherboard tray has 18.5 mm of space for cable routing - enough to organize cables.

Manufacturer	Cooler Master
Model	CMP 510
Product code	CP510-KGNN-S00
Color	black
Material	steel, plastic
Side panel	tempered glass
Height	463 mm
Depth	445 mm
