### Neewer N55C 168 cm tripod / tripod.

The Neewer N55C is a carbon fiber tripod that combines light weight, strength and high functionality. Thanks to its ability to be converted into a monopod, this model is perfect for a variety of photographic scenarios - from portraits to macro shots to dynamic outdoor shots. Its compact size and light weight make it an ideal travel companion, and its impressive lifting capacity allows you to work even with heavier camera equipment. Need a tripod that can meet any challenge? Opt for the Neewer N55C and enjoy comfortable and professional photography regardless of the conditions.

### Full freedom of movement and panning

The built-in ball head with a metal finish allows full 360° rotation, as well as tilting up to 90° for comfortable shooting both vertically and horizontally. The swivel base is ideal for creating panoramas, and the smooth movement of the head ensures comfortable and precise operation.

## Tripod and monopod in one

The Neewer N55C offers two options for quickly converting into a monopod. In the first, you simply detach one of the tripod's legs and screw the head to it. In the second one, you can additionally use the center column, allowing a maximum height of up to 180 cm. Thus, you can easily adapt the tripod to your current needs and conditions.

## Photos from any perspective

Four-section legs with a torsion lock system allow you to quickly adjust the tripod to a height from 57.5 to 168 cm. They can also be laid flat on the ground or placed on an uneven surface, which, combined with the reversible center column, makes it easy to shoot from a low perspective. This range of adjustment gives you full control of the frame in all conditions.

## Carbon fiber strength

Made of eight-layer carbon fiber laminate, the Neewer N55C is resistant to corrosion and extreme conditions. Despite its sturdy construction, it remains lightweight and mobile - when folded, the tripod measures just 47 cm and fits into the included carrying case for easy transport and storage. On the other hand, its lifting capacity is as high as 12 kg, so it will easily hold most cameras. The minimalist casing with subtle patterns adds to its interesting character.

## Included

- tripod
- storage bag
- hexagonal wrench
- user manual

**Manufacturer** Neewer

**Model** N55C

**Material** Carbon fiber
