

## LOQED smart door lock (silver) (WiFi BT)

Modelis: TouchSmartLock

Gamintojas: SHELLY

EAN: 8719326820101

Prekės kodas: 352579

# 378.98€

### LOQED smart door lock (silver) (WiFi / BT)

LOQED Touch Smart Lock is a state-of-the-art, fully keyless lock that combines a high level of security with exceptional convenience for everyday use. The device allows you to open and close your door with your smartphone, PIN code or one touch, eliminating the need to carry keys. With Bluetooth and Wi-Fi connectivity, it provides remote access, integration with Smart Home systems, and the ability to control in the Shelly app. It's a solution designed for European doors and security requirements confirmed by EN1303, EN15684 and SKG 3-Star certifications.

### Full integration with Shelly

The LOQED Touch Smart Lock is fully integrated with the Shelly ecosystem, opening up entirely new possibilities for automation. The user can create smart scenes - such as automatically turning off the

lights when leaving the house, raising the blinds when the door is unlocked, or adjusting the heating according to the presence of household members. All this is done from a single Shelly App, providing full control and comfort.

## **Keyless access and convenience**

Opening the door has never been easier - just approach with your smartphone or touch the panel to enter the house. The "Touch to Open" function allows you to instantly unlock the lock, and the "Auto Unlock" option recognizes the user's device and automatically opens the door when the user approaches. It's also possible to set a PIN code or give temporary access to guests - all in seconds from within the app.

## **Remote management and automation**

With a Wi-Fi and Bluetooth connection, you can remotely check the status of the lock, open or close the door, and set access schedules. The LOQED Touch Smart Lock allows administrators to assign access according to a specific time - ideal for householders, guests or service personnel. Real-time notifications will let you know when the door is opened or closed.

## **Full control in the app**

Using the Shelly app or LOQED App, you can monitor the status of the lock, check the history of openings and closings, and create automations linked to other smart home devices. Compatibility with Google Home and Amazon Alexa enables voice control - a short command is all it takes to close or open the door.

## **For home and guests**

With digital keys, the LOQED Touch Smart Lock allows you to easily share access with family, friends or cleaners. The keys can be activated for a specific period of time or revoked at any time. It's perfect for short-term rental apartments or homes where flexibility and security are important.

## **Security and durability**

The lock is made of hardened stainless steel, resistant to drilling and mechanical damage. The design is robust, and battery power (up to a year of operation on one set) ensures continuous operation without the need for frequent battery changes. If the power runs out, you can use the emergency connector and run the lock with a 9-volt battery.

## Included

- Touch to Open external panel with built-in code access
- Internal handle with mounting plate
- Bridge (bridge) for connection to a Wi-Fi network
- Batteries with a lifespan of up to 12 months
- Certified cylinder
