### Ottocast CarPlay wireless car adapter with car nanny (Cabin Care)

Ottocast Cabin Care is a multifunctional device for the car that combines a CarPlay wireless adapter and a rear seat monitoring camera - ideal for parents. With the built-in camera and high-speed wireless connection, you can monitor what's happening in the back seat without having to turn your head. The device looks like an owl, making the car interior more child-friendly.

### View the rear seat without taking your eyes off the road

Ottocast Cabin Care provides a constant view of what's going on in the back of the car. All you have to do is look at the screen in the cockpit. Thanks to the split-screen function, the camera image can be displayed simultaneously with the map or other CarPlay apps, allowing you to focus on your route

and stay completely safe.

## Good visibility even at night

The camera with its wide 150° viewing angle captures images from the entire rear row. Importantly, it also works at night thanks to the built-in infrared mode. Regardless of the time of day, you have a clear and crisp view of the situation in the car, giving you more comfort and peace of mind while driving.

## Installation that is hassle-free

You can choose between two installation methods: the camera can be strapped to the headrest or attached with a bracket to the metal bars of the seat. The whole process doesn't require any tools - it only takes a few minutes to get everything up and running. Connection to the car is via USB, in plug & play mode.

## CarPlay without cables

The device also acts as a wireless CarPlay adapter. Just plug the receiver into the USB port and the system automatically connects to your iPhone. No wires, no complications - convenient access to maps, music and contacts on your car screen.
