Unmatched Visual Performance and Reliability

Designed for continuous operation, this professional display is rated for 24/7 performance, supported by robust thermal design that significantly extends the equipment's lifespan and maintains consistent operation. The display delivers an immersive visual experience thanks to its ability to render 1.07 billion colors and utilize high-fidelity digital processing for vivid video reproduction.

Key Features for Commercial Applications:

- **4K Ultra HD Resolution:** Stunning 3840 x 2160 pixels ensures superior image quality for intricate details.
- **24/7 Continuous Operation:** Built and tested for non-stop use in demanding commercial settings.
- **Exceptional Color Depth:** Supports 1.07 billion colors, providing realistic and immersive color gradients.
- **Ultra-Wide Viewing Angle:** 178° horizontal and vertical viewing angles ensure perfect visibility across large rooms.
- **Rapid Response Time:** 9.5 ms response time minimizes motion blur, ghosting, and judder, crucial for dynamic content.
- **Integrated Audio Solution:** Features dual built-in speakers with a total RMS power of 16W.
- **Versatile Connectivity:** Equipped with three HDMI ports and one USB Type-A port for flexible integration.
- **Professional Thermal Management:** Specialized cooling design prevents overheating and guarantees long-term durability.

Connectivity and Installation

Installation is straightforward with VESA mounting support (200 x 200 mm), allowing for easy integration into existing video walls or standalone setups. The DHI-LM43-F400 offers multiple connectivity options, including 3 HDMI inputs and a headphone output, ensuring compatibility with various media sources.

DAHUA Technology is a world-leading solution provider in the video surveillance and IoT sectors, known for developing reliable and innovative display and security products that meet the highest

standards of performance and quality.

Order today from ++SHOP++ as we offer the best professional display solutions for your business needs.

- 4K Ultra-HD resolution
- Suitable for continuous 24/7 operation
- 8ms response time for no motion blur, judder or ghosting
- 1.07B colors, for a realistic and immersive visual experience
- High fidelity digital processing for a brilliant and vivid video
- 178°/178° extra-wide viewing angle for overall viewing performance
- Professional thermal design to extend equipment lifespan
