viewing angle.

- **Integrated webOS Platform:** Utilizes a high-performance System-on-Chip (SoC), enabling multi-tasking and content playback without requiring a separate external media player.
- **Even & Slim Bezel Design:** Features perfectly balanced horizontal and vertical slim bezels for a visually harmonious and immersive viewing experience.
- **Enhanced Durability:** Optimized for tough business environments, featuring conformal partial coating on the power board for protection against salt, dust, iron powder, and humidity, plus an IP5x rating.
- **Comprehensive Security:** webOS Signage employs LG Shield, a five-tiered defense system covering hardware, OS, system, application, and server layers.

Optimized Design and Installation

Designed for maximal space utilization, the UH5Q series features simplified cable management and specialized hidden power inlets, allowing installation very close to the wall—leaving only about 13.5 mm of space when using the dedicated slim bracket. This specialized design simplifies installation in demanding retail settings while maintaining a sophisticated, modern aesthetic.

Content Management and Control

Manage and deploy your creative digital signage content effortlessly using LG's SuperSign solutions. SuperSign provides an integrated and intuitive content management experience, connecting customers to a range of services. The webOS platform also supports ETSI EN 303 645 standards for enhanced system security.

LG is a globally recognized innovator in technology, known for producing high-quality, durable commercial displays and smart solutions that empower businesses worldwide.

Order today from ++SHOP++ as we offer the best prices and dedicated support for all your professional display needs.

UHD Signage Display with LG webOS Platform and Advanced Security

Superb Picture Quality with Ultra HD Resolution

With the resolution of UHD, it makes the colors and details of the content vivid and realistic. In

addition, the wide viewing angle provides clear content.

Even & Slim Bezel Design

The UH5Q series features perfectly balanced horizontal and vertical slim bezels, creating a visually harmonious display solution. Its specialized design simplifies installation in retail environments while delivering a truly immersive viewing experience.

Convenient webOS Platform

The UH5Q is equipped with a high-performance SoC that allows for multiple tasks to be performed without a separate media player. The webOS platform provides app development tools with an intuitive UI that enhances user convenience, and includes webOS partner apps to create an SI-friendly environment.

Design for Space Utilization

Designed with thin bezels and simple cable management, the UH5Q saves space. With specialized hidden power inlets, it can be installed close to the wall, leaving only about 13.5 mm of space with the slim bracket.

Durability that Provides Reliability

Optimized for business environments, the UH5Q is protected against salt, dust, iron powder and humidity thanks to conformal partial coating on power board, allowing for stable operation. Also, its customer-centric features, such as IP5x and Shock Monitoring, provide both reliability and satisfaction.

Comprehensive Security

webOS Signage goes beyond security measures at the operating system (OS) level. LG Shield employs a five-tiered defense system, encompassing server, application, operating system, system, and hardware. Each layer operates independently, providing comprehensive protection against various threats. Also webOS platform support ETSI EN 303 645.

SuperSign Solutions

SuperSign is an integrated and intuitive content management solution for creative and organized digital signage content in your space, connecting customers to a range of services with convenient user experiences. There are a variety of versions such as SuperSign Cloud, so discover and enjoy the
