

Case ENDORFY ATX/micro ATX/Mini-ITX White Midi Tower PC EY2A018

Modelis: EY2A018

Gamintojas: ENDORFY

EAN: 5903018668864

Prekės kodas: 358137

116.99€

The Arx 500 White ARGB is a spacious and airy PC case, perfectly suited for high-performance builds – whether for gaming or professional use. Equipped with a fast USB-C port and space for 7 fans, the case is compatible with full-size ATX motherboards and supports radiators up to 360 mm. Its white color and ARGB backlighting immediately catch the eye.

Arx 500 White ARGB

Arx 500 White ARGB is a sleek, airy white case compatible with ATX and smaller motherboards. Designed to house top-tier components, it supports radiators up to 360 mm and up to seven fans — including four pre-installed, whisper-quiet Stratus 140 White PWM ARGB units that deliver both high-

performance cooling and vibrant backlighting. Perforated panels ensure optimal airflow while also protecting against dust buildup.

A tempered glass side lets you showcase your build, while thoughtful cable management features enhance both airflow and visual appeal. The front I/O panel provides easy access to three high-speed USB ports — including USB-C — and two audio jacks for maximum convenience.

Efficient cooling and dust protection

The finely perforated PC case, combined with the pre-installed fans, ensures efficient cooling for your components. The top and front panels, which also serve as dust filters, and the filter at the bottom of the structure protect the inside of the case from dust. You can easily remove and clean them.

Stratus fans

The Arx 500 White ARGB fits up to 7 fans, including 4 pre-installed Stratus 140 White PWM ARGB fans - 3 at the front, 1 at the rear. Developed in collaboration with Synergy Cooling, these fans ensure quiet operation and effective cooling for your components. Thanks to their robust hFDB bearing, they offer long-lasting durability and reliability. Additionally, the PWM controller allows for precise fan speed adjustment.

glass and hidden cables

The side panel of tempered glass lets you enjoy a clear view of your computer's interior at all times. It blends seamlessly with both subtle components and vibrant gaming hardware with LED backlight. Numerous cable grommets, combined with space behind the motherboard tray for better cable management, improve interior aesthetics and optimize airflow. As a result, your components stay cooler.

Spacious interior for demanding users

The Arx 500 White ARGB is a spacious PC case that easily accommodates even the most demanding components. The case supports a wide range of cooling configurations, including a 360 mm radiator at the front, a 280 mm radiator at the top, and a 140 mm radiator at the rear. It also fits air coolers up to 179 mm tall and up to 7 fans.

Modern I/O panel with fast USB-C

The I/O panel of the Arx 500 White ARGB, located at the front of the top panel, is equipped with a hpractical selection of ports. It includes two USB-A 3.2 Gen 1 ports (up to 5 Gbps) and two 3.5 mm audio jacks for headphones, speakers or a microphone. There's also a modern, high-speed USB-C 3.2 Gen 2 port (up to 10 Gbps) – allowing you to easily connect devices that require this type of port, without the need for adapters.

Stylish ARGB backlighting

A set of four Stratus 140 White PWM ARGB fans will light up your case in any color you choose. Thanks to the included PWM and ARGB controller, you don't need a compatible motherboard – just press the RESET button to choose from predefined programs and colors. The module also makes it easy to connect Stratus fans to a motherboard compatible with 3-pin ARGB and 4-pin PWM if you want to control the lighting and speed via the motherboard.

- Efficient cooling and dust protection
- Top-notch Stratus fans
- Tempered glass and hidden cables
- Spacious interior for demanding users
- Modern I/O panel with fast USB-C
- Stylish ARGB backlighting
