The Dell Pro Max 18 Plus MB18250 redefines mobile performance, engineered for professionals who demand uncompromising power, speed, and visual clarity. Combining the cutting-edge Intel Core Ultra 9 processor with NVIDIA's professional-grade RTX PRO graphics, this 18-inch machine is built to handle the most intensive tasks, including complex 3D rendering, AI development, large datasets analysis, and high-resolution video editing.

Unrivaled Performance and Processing Power

At the heart of this powerhouse is the Intel Core Ultra 9 285HX processor, delivering desktop-level processing speeds crucial for heavy workloads. This is seamlessly paired with a massive 32 GB of high-speed DDR5 memory, ensuring smooth, lag-free multitasking even when running multiple resource-hungry applications simultaneously.

- **Processor:** Intel Core Ultra 9 285HX (Extreme Performance)
- **Memory:** 32 GB DDR5 RAM for superior efficiency
- **Storage:** Lightning-fast 1000 GB (1 TB) Solid-State Drive (SSD)

Professional Graphics and Immersive Display

Experience visualization breakthroughs with the dedicated NVIDIA RTX PRO 3000 graphics card, featuring 12 GB of ultra-fast GDDR7 memory built on the advanced Blackwell architecture. This GPU provides certified performance for professional applications, ensuring stability and rapid processing for creative and engineering tasks.

The expansive 18-inch LCD display boasts a crisp QHD+ resolution (2560 x 1600 pixels). This 16:10 aspect ratio maximizes vertical screen space, boosting productivity and offering stunning clarity for detailed visual work.

Key Features for the Professional

- Massive 18-inch QHD+ (2560 x 1600) LCD display
- NVIDIA RTX PRO 3000 12 GB GDDR7 professional GPU
- Pre-installed Windows 11 Pro operating system for enhanced security and business features
- English layout keyboard with convenient backlighting for use in low-light environments
- Extended 36 month manufacturer warranty (excluding battery, which is 12 months)
