Built for both visual clarity and superior user comfort, the QHD resolution (2560 x 1440 pixels) provides significantly more detail than standard Full HD screens. The high 144 Hz refresh rate combined with a rapid 1 ms response time (optimized mode) minimizes motion blur, ensuring crisp and fluid action sequences. Furthermore, the Dell Plus S2725DC monitor boasts TÜV 4-star certification for eye comfort, actively reducing strain during long usage sessions.
