The Dell Pro Max 16 MC16250 is a high-performance mobile workstation designed for engineers, architects, and creative professionals who demand uncompromising power and reliability on the go. Featuring a cutting-edge Intel Core Ultra 7 processor and professional-grade NVIDIA RTX PRO graphics, this 16-inch laptop is built to handle the most intensive workflows, from complex 3D modeling and rendering to advanced data analysis.

Unrivaled Processing and Memory

Experience seamless multitasking and rapid application load times thanks to enterprise-level components:

- **Processor:** Intel Core Ultra 7 255H delivers exceptional speed and efficiency for next-generation AI and professional tasks.
- **Memory:** Massive 32 GB of high-speed DDR5 RAM ensures smooth operation even when running multiple resource-heavy applications simultaneously.
- **Storage:** A lightning-fast 1000 GB Solid-State Drive (SSD) provides ample storage and minimizes boot-up and file transfer times.

Next-Generation Graphics and Display

Visual professionals benefit from the powerful discrete graphics card paired with a sharp, vibrant display:

- **Professional Graphics:** The NVIDIA RTX PRO 2000 GPU, based on the advanced Blackwell architecture, features 8 GB of blazing-fast GDDR7 memory, providing the necessary horsepower for real-time ray tracing, complex simulations, and machine learning development.
- **Display Quality:** Work comfortably on the expansive 16-inch FHD+ display, which provides excellent clarity and detail for accurate visual work.
- **Operating System:** Pre-installed with Windows 11 Pro, offering enhanced security, management features, and stability required for professional environments.

Connectivity and Reliability

- **Connectivity:** Modern Bluetooth version 5.4 ensures robust connections with all your wireless peripherals.
