Manage Drive Health

Video data is increasingly becoming more important within video surveillance applications. To better protect that data and provide peace of mind, Seagate is including three years of their industry-leading Rescue Data Recovery Services.
Data is important, and Rescue Data Recovery Services provide peace of mind in case of unexpected or accidental data corruption and drive damage. This service gives you access to a global team of world-class data recovery experts and has a 95% customer satisfaction rating.
SkyHawk Health Management (SHM) drive monitoring software is designed for prevention, intervention and recovery. It is available on standard SkyHawk and SKyHawk AI surveillance hard drives.

Protect Your Drive

Every SkyHawk and SkyHawk AI hard drive offers three years of Seagate’s Rescue Data Recovery Services plan to protect against problems that can cause data loss.
